MEMORANDUM BOOK OF DR. JOHN EWING WITH ACCOUNT OF A JOURNEY TO SETTLE THE BOUNDARY OF PENNA., MAY, 1784.

1—Vol. XIV—6th Ser.

Memorandum Book of John Ewing

May 31st 1784.

Mr. Rittenhouse & I agreed to observe the same method in fixing our meridian lines at our different stations which was by ye Passage of 6 ursa minoris and of a Libra over the meridian By his calculation the Difference of Time between Their Passages is 12-38 but by mine it is but 12-33.

This being previously agreed upon a small error in ye position of our Meridian cannot affect our observations as they must be parallel to each other, should such an error take place. We agreed also to view Sirius passing the meridian every Day, when ye sky was serene for regulating our clocks as well as ye Passage of the Suns Simbo over ye Wires of ye Transit Instrument, and also to take equal altitudes of ye Sun & Stars, when it could be done, for the same purpose. The Difference of our Meridians is to be determined by the Eclipses of Jupiters Moons and the occulation of Stars by the Moon, which are therefore to be observed from ye first of July till ye 20th of Sept. when the Eastern Observers are to set off to come to us with their Observations, for the completion of ye work.

N. B. When ye Transit Instrument is to be used, the Object End is to be pulled out about half an inch to rectify the Line of Collemation.

The view Sirius, it must be elevated to the angle of 33-37-30.

Sirius passes the meridian on July 1st 1784 at 11-54-6 M. Time.

May 31st 1784. Began to pack up the Instruments & Baggage for my expedition to settle the Boundaries of ye State of Pennsylvania.

June 2d. Set off from Philada. & proceeded to Octoraran where Mr. Hutchins came to me; from thence we passed on to York where we arrived on ye 10th at evening, having on that day fallen in with Coll. Porter our commissry. The road very good, but ye Land poor and ill tempered, few streams but muddy.

11th. Waited at York to get a new axle in our carriage as the former had split in the nave in the second Day's Journey. This Day it rained so that we could make no observations to

ascertain ye Latitude of this town, but Mr. Archd. McClean informs us that it is 17 miles North of the West Line or southern Boundary of ye State which will make the Latitude 39-58-2.

12th. Set forward on our Journey, breakfasted at Wolf's Tavern, five M. from York Town, & dined at ye Widow Kuhn Tavern 14 miles farther or 19 M. from York. The road level & good, but cut in some places with waggons. The Land rich & fertile & fit for producing good crops of Wheat. The Codorus or Pidgeon Hills lying to ye left of ye road and nearly parallel to its Direction at ye Distance of one two & three miles, in sundry places. These Hills seem to terminate here & ye South Mountain begins to appear before us, which lies about 20 miles forwd.

The Codorus Creek crosses our Road at York Town & thence flows to ye Susquehanna on ye South Side of them. At the Distance of 15 miles from York we passed this morning, thro a small town, named Abbot's Town containing about 40 Dwelling Houses, with a church belonging to the German Lutherans & one belonging to ye gn. Calvinists.

We crossed many streams of water this morning which run Northward into Conewago Creek. About a mile forward we crossed the little Conewago, about a mile above its Junction, with the large Branch.

McCalister's Town lies about South Easterly from ye Widow Khun's distance 6½ miles & that lies about 4 miles N. of ye Line so that we are now about 10 miles due north of the Line at this Tavern. Hence the general Direction of our Road from York is about W. by S.

The Road from Widow Kuhn's to Mr. Gettiss lies thro poor Land in general. The Dist. is 10 miles. About ¾ of a mile from here we crossed Rock Creek a Branch of Monockesy which falls into Potowmac. About three miles we pass over Marsh Creek and about 7 miles farther we cross Tom's Creek, both branches of ye same Monockesy. This lies at the foot of ye South Mountain which lies 10 miles from Mr. Gettis's Tavern. We now enter good Land called ye Marsh Creek Settlement, which extends to Carrol's Tract lying between it & ye South mountain.

13. Sunday; Rested with Coll. McPherson & preached for Mr. Black.

14. Set off from Coll. McPherson's in the morning. Col. McPherson, Mr. McConaughy & Mr. Moses McClean accompanied us to Adam Cosacs on ye South Mountain. Dined there, about 12 miles from Coll. McPhersons. They dined with us.

The Land of Marsh Creek Settlement is very good & ye crops seem promising. And there are some Plantations on the mountain which at Nicholsons Gap is about 10 miles across

—About 2 miles crossed the red Run & about 4½ miles crossed it again. About 1½ miles crossed Antietam Creek which falls into Potowmack about 2½ miles from ye mouth of Connecocheague. It has three Branches, the Middle Branch crossed ye Road at Adam Smith's Tavern. At 2½ miles forward we cross ye Western Branch of Antietam. We now enter the Valley of Antietam & Connecocheague containing Very good Land, fine crops. Five miles farther we come to Gordon's Tavern, & about 10 miles farther we come to Coll. Alison's, Cronpleton's Town is about 7 miles from this Tavern. Lodged all night with Coll. Johnson about a mile from Gordon's Tavern. Connegocheague runs down ye North Mon. while Antietam runs near to ye South Mountain. They are divided by a small Ridge that runs thro ye Valley. Gordon's Tavern is about 4 miles North of ye Line of ye State, which crosses ye South Mo. about a mile below ye Road on ye Top.

15th. Breakfasted with Coll. Johnson and he & Coll. Smith accompanied us to Coll. Alison's where we overtook the Waggons and stayed to dine with him. The Land in this valley is exceedingly rich in general, and from the Quantity of rain that has fallen this Spring the crops look very promising. The Land being Limestone, the crops are liable to fail in a dry season; but in this season, the people expect 20 Bushels of wheat to ye acre. After Dinner we passed on in our Journey & crossed ye East Branch of Connegocheague, which is about 60 yards wide & 2 feet deep. We passed this afternoon thro what is more properly called ye Connegocheague Settlement, which is in general a Slaty or Shelly Land not so rich as the Antietam Settlement, yet ye crops look very well. In the evening we came to ye Rev. Mr. King's with whom we lodged that night. He lives on ye West Branch of Connegocheague which is nearly as large as the other, at McDowell's Mill & close by Parnel's nob which is on high spur of ye North Mountain near to fort Loudon.

16th. Left Mr. King's and passed up the Path Valley leaving Parnel's Nob to the right Hand, with the Tuscarora Mountn. on our left. After proceeding up the valley 10 miles we came to Jamison's Tavern, where we dined, Mr. McFarland having accompanied us so far. There is but little good land yet appearing tho some few houses are to be found along

the Road. About 4 miles before we came to the Tavern we passed Tom's Tavern who also keeps a store (where I bt. a pr. grs.) Twelve miles forward we come to Fort Littleton. Sherman's Valley lies northwards of the Path Valley between the same mountains. About 3 miles from Jamison's Tavern we passed out of the Path Valley over the Tuscaroroh Hill into Auchwick Valley having the great Cove Mountain on our west and another rising on the East and turning towards ye West on our right Hand ended in an high Peak at Fort Littleton called the Shade Mountain.

The Land in this Valley is miserably poor & no settlements in it except a few Houses built on the Road to accommodate Passengers. The Hills are covered with poor Pines and ye Land very Stony, not fit to bear any grain of sufficient value to pay ye expence of culture. About 8 miles from Fort Littleton we passed little Auchwhick passes by the Fort, and joins Sideling Creek about five miles below the Fort, from thence it received the name of big Auchwick and afterwards falls into the Juniata. Lodged at Bird's Tavern at F. Littleton.

17th. Set off on our Journey towards ye Sidelsng Hill which it 10 miles Distant. The Road leads thro a poor hilly country covered with Pines & Barren Oaks, a sandy soil mixed with slate & not fit for cultivations, no Plantations on the Road & but a few Huts for the Accomodation of strangers at about 5 miles from Litteton we passed over Scrub Ridge, which is an irregular congeries of Hills lying in the Direction of North & South a little inclining to the Westward. Dined at the Foot of Sidleling Hill at McDonell's Tavern. Woodbridge Creek suns thro the Sidlong Hill, or rather rises near the Top of the Hill and runs till it joins Auchwick Creek, a Branch of Juniata. At 10 miles from this Tavern we come to the great Crossings of Juniata, and at ye Distance of 14 miles farther we come to Bedford. The Cove Mountains appears to the East over the Scrubby Hill from ye Tavern where we dined. From McDonnell's Tavern to ye Top of ye Sidlong Hill and along the Ridge called Rays Hill we passed over a wretched bad road, for seven miles, full of Stones without any repair for many years past, having Well's Valley on our right hand which contains 4 or 5 thousand acres of good Land. On ye left Hand we had a valley between ye Sidlong Hill & Rays Hill called Brush Creek Valley in which Mr. Hunter has a Survey of 600 acres. John Crevins (2) keeps a Tavern at ye Foot of Ray's Hill & from there to Juniata is good Road, tho hilly, till we come here.

The Roads ought to be made good at the public charge because the People are few that live near them & it is ye only way to preserve the communication between Philada. & the Western End of the State so that otherwise ye Trade of ye Western Part of ye State must necessarily go to Baltimore, as the Inhabitants are endeavoring by the bid of their Legislature, to open a Road to Pittsburg That will be so far superior to the present Roads as to induce the People to prefer that Market. Lodged at Crossings of Juniata at Coll. Martin's & supped on a fresh Salmon.

18. Proceeded on our Journey towards Bedford, which is 14 miles distant. At seven miles distance we cross a gap of Terrace or Tusties Mountain, thro which ye Juniata runs and near Bedford we pass thro Dannins or Evits Mountain by a Gap, thro which Dennin Creek runs. But before we come to this mountain we pass thro Aleguippy Ridge, & then come to ye Bloody Run & Warriors Mountains, after which we come to Dunnins Mountain. On the East of Tusties Mountain lies the Warriors Ridge which continues up to ye Standing Stone. The Road thro which we came to ye Warior's Mountain lies thro a good Piece of Land, fit for ye cultivation of wheat & rye & corn pretty well timbered with White Oaks, Pines, Black Oaks & Hickories. John Paxton keeps ye Tavern at ye Warrior's Mn. or Bloody Run; so called from the murder of a number of People sent to escort Provisions to Mr. Buchanan who was surveying ye Roads to Bedford in ye year 1755. The road pretty good from Juniata Crossing to this Tavern excepting the Descent of ye Aliguippy Hill which is steep, long & stony. The Road from this Bedford & ye country pretty much ye same with what we passed this day. Dined at Bedford and after Dinner took two Altitudes of ye Sun by Mr. Hutchins little Quadrant for ascertaining ye Latitude when ye error of ye Instrument is ascertained. The observations are:

Waited that afternoon for our Waggons, but they could not reach the Town some of their Horses having strayed away on that night, the waggons did not arrive at Bedford until the next Day at noon or rather near evening.

19th. Waited this Day also for our waggons, which did not arrive till near the evening & could not proceed further.

20th. Sunday stayed at Bedford. The wagons would have proceeded as we now began to be apprehensive from ye Badness of the Roads that we should not be able to reach the Station before the storm by which we were to ascertain our Meridian would pass it in Day Light; but they were retarded by Mr. Dougherty's procuring them to be stopped.

21st. Set off very early & breakfasted at Mr. Todds, Coll. Porter having gone there before us on Saturday night. At Mr. Todds we saw the effects of a whirlwind, which extended about 80 Rods wid which broke & tore up the Trees by the Roots many of them not less than three feet in Diameter scarcely leaving a tree standing whole in its course. Mr. Todd's House & Barn were left without their Roofs and he being an eye witness of ye Catastrophe tells us that ye Limbs of ye Trees of a prodigous Size were whirled thro the air like leaves & carried to a great Distance. The effects of this whirlwind have been observed by Travellers to have begun about Crooked Creek which empties into ye Allegeny River above Fort Pitt, and to have proceeded on to Bedford marking its way with an incredible Destruction of ye Timber. This whirlwind happened about 10 days ago viz on Friday ye 11th June. We have no accounts of its proceeding farther than Wills or Evits Mountain which lies on ye West of Bedford about 4 miles. After passing about 4 miles we get on the dry Ridge which extends 11 miles and after passing thro a low valley in which we find a small stream of water we begin to ascend the Allegeny Mountain at ye Distance of 17 miles from Mr. Todd's. The Land from Mr. Todd's to ye foot of ye dry Ridge is very good, well timbered & fit for ye Production of any grain the wood generally is White Oak & black oak with some Walnut & a few Locusts. The Roads free from Stones & pretty level, but cut with Waggons & without Repair. There are 3 or 4 Families living on ye Lands who seem to live plentifully. Before we come to ye Dry Ridge we passed a Brook which seems to be the Bedford Branch of ye Juniata after which we see no more water till we get off this Ridge. We crossed ye sd. Branch about a mile before we came to Mr. Todd's & again two miles after we passed his house. Wills Mountain on our left about 1 or 2 miles. The Road lies along the top of ye Ridge & pretty level, excepting 4 or 5 Descents & Ascents. It seems as if it never had been opened by an ax, and never repaired. It is so narrow that it is generally

impossible to avoid ye Ruts which in some places are deep. With a very small expense it might be made very good this Ridge is midling good Land but uninhabited because there is no Water for ye Inhabitants. There is a small spring about ye middle of ye Ridge. The Western End of ye Ridge is better Land covered with larger Timber, the Descent is pretty steep & stony. The road along ye Western End is more cut with Waggons & very narrow so that ye Ruts cannot be avoided. At ye West End there is a spring after which we pass over another Ridge called the three Lick Ridge from this number of Salt Springs or Licks found in it near to our Road. This Dry Ridge divides the Waters of ye Juniata from those of Wills Creek or ye Potowmack. The Summit of ye Ridge seems generally to be no more than 200 yards wide. We stopped 2 miles beyond ye spring where there is an Ordinary where they sell drink, but no victuals. About half a mile farther after passing along a valley in which a Branch of ye Juniata rises we began to ascend a Ridge or spur of ye Allegeny Mountain which extends Eastward about 3 miles from it. The ascent was very steep & stony for about 200 yards & afterwards gradual and easy to ye Summit & the road on ye Summit good, being neither stony nor cut with waggons. The road is nearly made and may be greatly improved by beginning ye ascent a little sooner and raising it gradually along ye side of the Hill. As this Road continues along the summit of the spur, till its Junction with the Mountain, it gives a great advantage in ascending it, as the Summit of the Allegeny is not much higher and the ascent is easy & long. There is another road, farther up the valley before mentioned, which joins with this about half a mile from ye mountain, which is now so stony, miry & cut with waggons as to be impossible. On the Eastern side of the Allegheny many streams of excellent water burst out, for the Refreshment of Travellers.

From the Ordinary on the East Side to Mr. Black's Tavern in the glades is about 10 miles, to the Summit of ye mountain about 4, across ye summit about 2 miles, the Descent on ye Western Side about one & from thence, to Black's three mi. Near the summit there is a deep pond of stagnant water, and about half a mile to ye Westward of it, ye waters divide which flow to the Ohio & ye Chesapeak. The Descent on the Western Side is by a very Stony & Road which continues to be very bad untill we enter ye great glades. about two miles from Block's Tavern. The soil on ye mountain is rich & fertile but so very stony that it can easily be cultivated. In

the evening we came to Block Tavern two miles in ye glades, and lodged there.

22d. Waited at Mr. Block's for ye Waggons till their arrival in ye evening, which occasioned our tarrying all night.

23d. Set off from Mr. Black's & proceeded to ye Foot of ye Laurel Hill 16 miles, viz, 3 miles to Gilmore's, 5 to Augony's & 3 to Cooper's where we dined. The road thro the glades was very level & excepting in a few places very good, which might be easily mended & with a very small expense. In some places ye Land exceeding poor & in others tolerably good, a few Places are well timbered with white oaks, Black Oaks & chestnut. From Cooper's to Cairn's across ye Laurel Hill is 9 miles of which 8 miles lie across ye Mn. to Indian Creek or Salt Creek & one mile farther to Cairn's. From Cairn's to Cherry's Mill 8 miles. The Land on this Hill is a rich deep soil abounding with chestnut, Oaks, Poplars, there are some Locust & Papaw Bushes. The stones on this gap are all Freestone fit for Grindstones & Building. Altho in other Parts of ye Mn. are found Stones for Milstones. On ye Summit of ye mountain it is too stony to admit of cultivation, yet on each side ye Land is rich & arable & well timbered and most fertile Land lies on ye West side of it. The Road across this Part of ye Mountain is pretty good, ye ascent & descent very easy & not much obstructed with stones.

With a small expense it may be made ye best way to cross ye mountain. The Road across here divides ye counties of Fyette & Westmoreland. From Indian creek to Jacob's Creek ye road lies across ye chestnut Ridges where ye Land is thin & stoney, abounding with chestnut & Wh. Ok.

Lodged at Mr. Cherry's this night.

24th. Waited for ye arrival of our waggons, which by mistake we supposed had taken a Road to ye Right of ours, & crossed at William's gap. The waggons did not arrive in the evening.

25th. Waited for the waggons and at 3 o'clock heard nothing from ther. At Mr. Cherry's Mill we are about thirty miles north of ye Line.

26. Heard that ye waggons had not taken ye other Road but had been delayed by being broken on ye Laurel Hill, upon which we took our horses and returned to look for them, & found them about 2 o'clock & not quite repaired. Returned again in ye evening with ye Light Waggon & the waggon that carried our Instruments to Mr. Cherry.

27th. Being Sunday rested at Mr. Cherry's & ye wagons arriv'd.

28th. Set off from Mr. Cherry's accompanied by Mr. Cherry & Mr. Bradly 5 miles. On Sunday Evening our Express returned from Besen's Tavern with a letter from Dr. Madison requesting an interview at Mrs. Crawford's at Stewart's crossings about 2 miles above ye broad Ford on the Yohiageny. This occasioned an alteration in our Rout and the Waggons were ordered to proceed to Besen's Town. We met Dr. Madison at Mrs. Crawford's attended by Coll. McClean & Major Douglas of that town. From Mr. Cherry's to ye crossings is 10 miles pretty good Road being mostly ye Road opened by Genl. Braddock.

The land along ye Road is rich & fertile pretty level well timbered & watered abounding chiefly with White Oaks, and the crops exceedingly luxuriant. Dined at Mrs. Crawford's the widow of Coll, Crawford, who was murdered by the Indians and after Dinner proceeded to Beson's Tavern 12 miles farther that Evening where we lodged at Mr. Hasten's Tavern. In the afternoon we passed thro richer Land than in the morning, where the Improvements were larger, and ye crops more luxuriant. About half way between Mrs. Crawford"s & Beson's Town we passed thro Giusts Tract of a thousand Acres, which was the best & largest Plot of Land we had seen on this Side of ye Mountains. The Laurel Hill ran nearly parellel to our Road. The general Direction of the Mountain is S 15 W. but our Road nearly South. At Beson's Town we crossed Redstone Creek where ye water is brought thro ye Town to Turn a Saw mill. There are near 30 Houses in this Place, which is now made the County Town of Fiatt.

At half a mile from Mrs. Crawford's there is a most beautiful cascade in Harrison's Run where the water falls perpendicularly over a broad Limestone Rock about 20 feet. This Rock in Front is hollowed into a regular semicircle about 150 yards in circumference and is about 8 or 10 inches thick. It projects about 10 or 12 feet over 15 or 20 strata of Stones of different Thicknesses regularly disposed, whose Front is also hollowed in a regular curve of a concentric circle, making a perpendicular curved wall under the projecting thin Rock, as if it had been formed of hewn stones, whose Ranges are of different Thicknesses & laid by the Hand of a Mason; the stones in each of these Ranges are nearly of the same thickness from one end of ye arch to ye other but the upper Plate over which ye water falls is one continued stone, under which

there is a fine semicircular Walk, between ye falling water & the Front of the different strata of Stones of about 10 or 12 feet broad; and the Pavement of this walk is another continued broad Stone similar to yt. which lies on the Top, and formed into a similar Semicircle and projecting to the same Distance.

This thin Rock is also supported by other similar strata of Stones for 5 or 6 feet deep to ye Bottom of ye Run where ye water falls.

By the assistance of a little Labour in removing some loose stones that lye on the Pavement, and also some of ye stones of ye strata under the second broad Rock, there may be formed a most ample & grand Amphitheatre with gallery above gallery unsupported by pillars.

29th. Waited for the waggons, Two of them came by noon and the other two in the evening or rather by 5 o'clock. Lodged at Mr. Huston's in Beson's Town that night.

30. Waited for ye Repairing of our Waggons at Union Town commonly called Beson's.

July 1st. Proceeded on our Journey attended by Mr. Alexr. McClean & Mr. Jacob Beson and after travelling 7½ miles came to Dunlap's Creek (at John More's) which creek falls into ye Monongahela at ye old Fort. Oley Crawford's Ferry on ye Monongahela is Distant from us 4½ miles. The Land thro which we passed this morning is rich & fertile producing good crops of wheat, rye, corn &c. it is generally covered with white & black Oak. The Land is hilly and ye Vallies are very rich abounding with Plumb Trees. At 5 miles from ye Ferry we come to Col. McCleary's in Washington county, where we lodged that night. The Land on this Side of ye River is more fertile & level than on ye East the Roads are pretty good excepting the Descent on ye East side of monongahela, where we came down to ye Ferry is very steep & not yet made fit for a waggon, but might be made very good with a little Labour & expense. The streams of water thro this country generally fail in ye summer so that ye mills cannot go.

2d. Waited for our Waggons which came up in ye evening.

3rd. The Waggons proceeded in ye morning & we followed in ye afternoon towards Jackson's Fort which is 11 or 12 ms. distant from Col. McCleary's. To clines is 4 miles & from thence to Hagan's 4 more at ye coal lick run & from thence to Jackson's Fort 3 miles. From the Fort tis advised to take up Jackson's Creek to the dividing Ridge.

Angle of ye Line S 89-53′ West Mason's & D. last Post marked 233—McClean run 23 miles to a marked Poplar with 12 notches standing on ye N. E. side of a Ridge to ye stream Eastward of which is a small stream about 20 or 30 perches—the Line having crossed a Ridge & then thro a Valley in which ye stream runs northward for 80 perches & ye verges to ye West, and then ascends ye same Ridge which makes a ye Poplar.

The Mean of all these gives the Appt. noon at 12—5—8 by the Clock. But the Clock pointed out 11—59—24 therefore deducted from 12 leaves 36″ for ye clock to be too show.

The clock has lost 30″ seconds in ye last 24 Hours. It loses 1.″25 pr. Hour.

Antares will pass the Meridian at 8h 30′—10″m. Time But ye Clock being too slow 36″ & losing at the rate of 31″ or 26″ pr. Day, that is 9″ in 8 & half hours, it must pass the Meridian by the Clock at 8h 29′—25″ which is 47″ before ye Calculated Time is shown by ye clock.

12 —12 —30 by Dr. Maddison but he thinks at 2″ later.

The Clock was 36″ seconds too slow at Noon by ye equal Altitudes taken that Day, having lost 31 Seconds in the preceeding 24 But by the Equal Altitudes of ye subsequent Day viz ye 18 July, she was one minute & two seconds too slow, having lost only 26″ in that Day, consequently she lost 13″ by the 12 at Night, when ye Observations of ye Immersion

were made. Therefore 36′+13″=49″ must be added as follows:
Mean Time.

At 12h—13′—49″ by J. Ewing.

Set ye Clock forward one minute therefore it is but 1″.5 too slow. The clock has lost 26″ in ye last 24 hours. At 6 o.clock P. M. shortened ye Pendulum to make her go faster & set her forward 9″ which Quantity we suppose she has lost since Ncon, so that we estimate her now to be nearly right, but this we verified by the Observations of the succeeding Day.

The Mean of all these Observations gives 12h—5′—55″ & when corrected by 4″ for the Chance of Declination it will give ye Mean Noon by the clock, which should have been 12—5—52. So yt. The Clock is therefore 7″ too fast.

Set the Clock back seven seconds & lengthened ye Pendulum a small matter. She is therefore nearly right.

20th. Took equal altitudes of ye Sun as follows—

The Curiosity of one of the Servants put ye Transit Instrument out of Place & prevented our taking ye Altitudes in ye afternoon.

We found by equal Altitudes of ye Sun taken with the Heidley's Quadrant that our clock was too slow six Seconds & therefore shortened the Pendulum a little & set her forward 6″—

21st July took equal Altitudes of the Sun.

11″ Clock too slow.

From the Mean of these Observations the Clock is too slow —only 11″—But if we considere ye ---- for ye change of Declination 8″ the clock is but 9″ too slow.

Dr. Maddison's clock is 5″ seconds before ours so that his clock is 4″ too slow. Set the clock 9″ forward.

Screwed the Pendulum up to make her go faster so that she is 4″ before the other clock.

This correction was made about 6 oclock in the evening.

An accident prevented our taking the corresponding observations in ye afternoon.

At 8 o'clock in the morning of 22d our clock was 3″ before ye other.

23d. At 6 oclock our clock was only one second before the other. This morning is cloudy with some rain.

It cleared up after 9 o'clock when we took altitudes of °

The Mean of these gives 12—5—48.5 which corrected by the Equation for equal Altitudes viz 5″ 5 makes 12—5—54 But ye Eq. of Time is 6—2.5 therefore the the Diff. is 8.5 Clock too Slow.

She therefore loses 8″5 In 48 hours 1″ in 6 Hours nearly.

Dr. Maddison set his Clock eight seconds before ours at 5 oclock ye 23d July P. M.

24th July took equal Altitudes of the Sun as follows:

The Mean of these is 12—5—42 w'ch corrected by ye Eq. for Equal Alt. 6″.5 gives 12—5—48.5. The Eq. of Time is 6—3.6 15.1 Too slow.

Dr. Maddison's Clock is eight seconds before ours & therefore is 7° too slow.

A return of all the Troops in this Department to be made to the Adjutant Genl. by Tomorrow at six oclock in the afternoon.

The stads of the several staff Departments to make returns at the same time of every article now under their charges which belongs to the army—The Genl. officers will make a Return as soon as possible of the number of Horses, which may be necessary for themselves and famelies on the expedition.

All other officers possest of Contl. Horses are to return them to the Quarter Master Genl. as soon as possible, who is to make a proper Return of the whole in order that a committee from the several corps, may arange & assign them to the several corps, at a Genl. Cort Martial held on the 8th June whereof Major Fish was president Oliver Arnold of the second N. York Regt. was Tried for Desartion and sentenced to be shot to Death, the Genl. approves the sentence and order it to executed at the Head of the Regt—tomorrow afternoon at six oclock Edward Taylor of the same Regt tried by the same Cort for Desartion, found Guilty and sentenced to run the guantlet through cortland's Spencer's & Cilley's Regt with a sentinel at his Breast to regulete his pace, the Genl. approves the sentence & orders it to be executed at the head of the Regt tomorrow at six oclock in the afternoon.

Lieut. Munday Qr. Mr. to the 2d N. York Reg't tried by the same Cort Martial for behaving unbecoming the charecter of an Officer & Gentilman in accusing Capt. Greham, Hallet and Wright, & Doct'r Menema, of fraud and partiallity in settleing his Rank, after they had been specially appointed by him for that parpose, found guilty of the charge and sentenced to be reprimanded in orders and ask pardon of Capt'n Greham, Hallet & Wright & Dr. Menema, waid on the gentilman before mentioned to-morrow at 4 o'clock in the afternoon at Col. Cortlands Marque, and ask their pardon.

However mortifying this sentence may be to Lt. Munday the Command'r in Chief canot but consider it as a light punishment for an Officer who after submting the dexition and settlement of his rank to gentlemen of his own choosing will

accuse them of Fraud & partiallity barely because their judgmet did not compound with his—it is impossible that the jugment of men appointed to settle a controversy can be parfectly Pleasing to boath partys, and if the party disatisfied may with empunity censor those who are appointed to determine the matter—there must soon be an end of that usefull method of settleing disputes. Lt. Munday must in this view of he Mather be conssious of his own errors as well as sensible of the Lenity of the Cort Mar'l by which he was Tried by a Gen'l Cort. Martial of which Lt. Col. Smith is President, the following prisoners were tried & sentenced, viz—

John Thomas, of Spencers Regt. charged with stealing Hogs & found guilty is sentenced to receive fifty Lashes and return the money he received for the Hogs to the owner. Silas Simmons, Joseph Tucker & Thomas Cobun, of Celley's Regt. charged with stragling, from camp & killing a number of hogs the property of the Inhabitence found not guilty & sentenced to be released from confinement.

James Farmer, Charles McLaughlin, John Rush and Enoch Leonard, of the 1st Jercy Regt., tried & found guilty of stragling from camp and killing a number of hogs the property of the Inhabidence are sentenced to receive Twenty-five Lashes each.

Frances Walker & John Feittle tried for the same crime but found not guilty, are sentenced to be discharged from confinement. David Mamford, James Willhead and Josh Osborn, charged with the same crime and found guilty, are sentenced to receive each Twenty five Lashes. The Gen'l approve the several sentences and Orders the punishment to be enflicted at the head of the Reg't to whome the belong to at Roll Call this Eving, he likewise Orders the prisoners found not guilty to be emediately discharged from confinement.

The Genl. Cort Martial which of Lt. Colo. Smith is president to set To-morrow morning at 9 o'clock for the trial of such prisoners as may be braught before them.

Officers commanding Corps are requested to recommend a non-commisd. Officer as a Clark to the Commisy. at this Poast.

Christ'n Castner a soldier in the Germ. Regt. confined ror speaking Disrectfull of Lt. Grometh's Carracter pleads not guilty.

Capt'n Myers being Duly sworn before the Cort says that Castner cam to him and ask'd him what he should do about his sixty Doller Bill that he lost when Lt. Grometh struck

him he asked him whether he had proper proof that Lt. Grometh had it, if he had not, He would bether be still about the Mather, and has not heard Castner say any more about the same.

Lt. Shugart being sworn says that the evening after Castner had rec'd his punishment, came to him and Told him that he was punished wrongfully whereupon he told him not to speak in that manner, whereupon Castner made answer that he ought to be Righted and not to loose the sixty Doll'r Bill that Lt. Grometh took out of his Hand, he told him to go to his tent and he would see farther in the Mather, Castner being at the Time a good deal in Liquor some days after he asked Castner whether he had Rec'd his money yet, his Answer was not, he then asked him whether he was sure that Lt. Grometh had it, his answer was he did not know but said he lost it when Lt. Grometh struck him.

Serjt. Low being duly sworn Before the Cort says that Castner accused Lt. Grometh for Taking a sixty Dollar Bill from him but says that he did not see Castner have a bill at all in his hand, and further said not.

Corpl. Burk being duly sworn before the Cort says that about half an hour after Lt. Grometh struck Castner that he saw Castner have a bill in his hand, but does not know the sum, and further says that heard Castner accuse Lt. Grometh for Taking a sixty Doll'r Bill from him.

David Robison a soldier in the Germ. Regt. being duly sworn before the Cort he says that Kaufman came to stand guard in Castner's Place whereupon Lt. Grometh ordered Kaufman to lay down his accutroments and fetch Castner whereupon Lt. Grometh struck Castner a few strokes and bid him go in the guard house, and further says that he saw Castner have a bill in his hand when he came in but to the Best of his knowledge saw Castner put in his pocked, the Prisoner having nothing to say in his defence, the Cort after Maturs, consideration and hearing the Evidences are of a opinion that the Prisoner is guildy of injuring Lt. Grometh character the Cort therefor Orders him to run the Gauntlet once up and once down the Regt.

The Gen'l congratulates the army on the glorious and emportant Intelligence just received from his Ex'y Gen'l Washington's Head Qrs. by a Letter from one of his Family of which the following is an extract—

Head Qrs. New Windser 16 July, 4 ocl'k.

Permit me to congratulate you on the success of our army in this Quarter of a most glorious and enteresting nature.

Brigadier Genl. Wain with part of the Light Infantry sur-

prised and took prisoners the whole of the Garreson Stony Point Last Night with all there Cannon Stors, Mortars, Howitz tents Baggage &c. without the toss of more than four or five privates—no officer killed or badly wounded—Genl. Wain received a slight in the Head with a musket Ball.

The garrison consisted of British and Newlevies, with two or three companies of grannadiers besides Artillery.

We have been able to obtain an exact list of the stors or prisoners but all account make near six hundred to have composed the garrison.

The Commander in Chief acquaints the Army that had the Bord of War complied with his Request and their own engagements respecting cloding at this Past would not now be suffering through want of any article in that way.

Altho he has been disappointed from time to time and had almost dispaired of receiving any suitable supplies of the kind yet, from late advice he promises himself the satisfaction of releiving at least the absolute necessities of the Troops before they move from hence.

'The honorable the Congress have been pleased to come to following Resolutions:

At a Genl. Cort Martial whereof Colo. Shreve was president

held at Wyolusing on the 7th Inst. Captn. Vananglen Commis'y to Genl. Hands Brigade was tried for unjustifiabley and crually beting & abuseing serjant Richly of the German Regt. found guilty of the charge and sentenced to be severaly Repramantid in Genl. Orders.

The Com'r in Chief approves the Sentence of the Cort and cannot helb observing that from the hole tenor of the Evidences recorded in Cort, it appears Capt. Wananglen was not only guilty of abuse of power, but manefested a malevolence of temper scarrecly to be equalled. Through the Genl. will never countenence soldiars in disrespectfull behavour to Off'r and Will entertain a poor opinion of an officer that Suffers himself to be ensulted without emediately chastiseing the soldier who may attempt it, yet he can never sufer officers to beat or abuse soldiers wantonly. Blows should never be given except they are necessary to the proservation of order and discipline, and then unaccompained with those marks of cruelty and manevolence which were apparent in the whole of Mr. Vanangelen's conduct what renders his behavior still more criminal is that he was a non-commiss'd off'r whome he made the object of his inhumanity & had it been a private soldier, the treatment could not attmit of the Least Justication. Capt. Vananglen is released from his arrest and cautioned against samuler conduct in future.

A Bort of Field officers whereof Colo. Cortland was President appointed to Settle the rank of Lts. Swartz & Greamier of the German Batalion haveing reported that Lt. Gremer ough to retain the rank he now holds, the Com'r in chief therefore derects that he holds his ranks as here to for.

Commanding officers of Regts. & Corps. to have a Throughout examination of arms & accutraments & ammunition in there respective commands in and see that they be in proper readinss for action.

The army to hold themselves in readiness to move on the shortest notice as they will be soon called upon to march against an emeny whose savage Babarity to our fellow cettzen has rendered them proper object of our resentment.

The Gen'l assures them it empossible to be opposed with equal numbers nor he think that if ever their number were equal they could not withstand the bravary & decepline of the Troops he has the honour to command.

It ought never theless to be remembered that they are assuret, disultory, and rapid enemy, siezing every advantage and availing themselves of every defeat on our part. Though

they can never withstand the Shock of brave and resolute Troops yet should we be so enattentive to our own safety as to give way before them they become the most dangerous and destructive enemy that can possible be conceived. The Following fugitives with all the annel & unrelenting hate of provailing cowards and are not satisfied with slaughter untill the have Totally distroyed their Oppenets. It there fore becomes every Officer and soldier to resolve never to fly before such a enemy but determine whein to Conquer or perish, which will ever enshure sucess.—The Genl. does not mention thoes things under the Least apprehension of whether officers or soldiers fealing in any part of there duty but that every one may go into action with the same spirit and dermination should this happily be the case nothing but an uncoman frown of providence can provint us from obtaining that success which will render pease and security to our frontiers and afford ever lasting honour to all concerned.

The Com'r in Chief having with great difficulty procured Shirts and frocks for those soldiers who are naked.

Officers Commanding Regt. & Corps are requested to make returns of such as have no frocks or coats, as also of such as have no shirts, that the may be supplied. It is expected that the Commanding officers will be paticularly attentive to see that no fraud be permitted in there returns as it would be unjust and dishonourable to the Last degree for Officers to Claime in our prsent circumstances of supplies more cloating there is absolutely necessary.

Though the Genl. cannot help expresing the highest approbation of the resolute conduct of Officers & soldiers in yesterday's execution yet he must again remind the troops of the

necessity of useing those precaution which he has so repeatedly urged not resolution to with stand the onset of such determined Troops, yet they are Fraithfull in stratagen secret in their designs and capable of taking in every advantage which the situation of the ground or own Inattention or want of caution may given them.

The proseeding of yesterday must Proof to every thinking Person the Propriety of former orders and the necessity of those.

The officers of regiments are possitively ordered not to be absent from their own commands whin ever their regiments are ordered to the Place where is a posibility of an attack from an enemy & the soldiers are cautioned against wantonly Throughing there fire when the have no object to Level it at.

How exceedingly Pleasing must it Be to force or fier cowardly Lurking Savages, to see one fire from them produce a wanding discharge from all the muskets in a number of regts. without any kind of aim meaing or an Order & Levelled at no object, but endaingering thire officers who are endavouring to restore them to order & spreading carnage among themselves. Painful as it is, the Gen'l must say much of the mischief done yesterday to our own Troops was done by ourselves who in every Part of their Cunduct proved that they had suficenent Bravery to engage & Conqur ten times their number of their dastardly foes.

As it is the Buisness of Officers to derect the fire of their Troops it is Possitively ordered that the officers in Future draw up their Troops in of an attack & point out the object against which their fire is to be derected and and the soldiers are possitively forbidden to Fire without first having received those deractions from their officers.

It is with Great Greef and astonishment the Commander in Chief is informed that some of the soldiers should steal the stores of the army and even the Private allowance of their messmats while others are so will as to trow away their own provision. The Discovers a unjust and ungenerous Dispoistion as well as an Inatention to their own comfort & safety. The genl. Declares that as the army has drawn provision to a certain Period he will not suffer the army to return through want of provision untill that period be expired.

The Gen'l also possitively declares that he will order 500 Lashes to be Inflicded upon any person Dected in the before mentioned offenders to an addition thereto to draw only five pound of Flour & meat pr. week during the campaign. The

Genl. be well convinced of the Inattention of same Brigade Commisy's & conducters of horses possitively orders that the Brigade Com'y be answerable for all the Provisions Delivered to them and that they make the Conducters accountable to them when provision are lost no Excuse will be admitted Except the Brigadier of the day upon having evidences Certifys that the Loss was inivitable—All other Losses are to be accounted for by the Commisy's & Conducters the are to have an Intire stoppage of their wages untill the same be compensated as the Troops will have such a Quantity of corn & beans at the place as will be amply sufficient for a days provision the flour they have on hand is to extend one day Longer than it was Issued for.

Commissaries of Brigades & Corps are particularly to notice this order & regulate their issues accordingly—The Troops are to hold themselves in readiness to march at the shortest notice in common order for Shemong—first gun for a signal for the Genl. 2d for the assembly & a third for a march to Beat one man from Each regt. to be added to Captn. The Commander in Chief with highest satisfaction returns his sinceer thanks to the Officers & soldiers of the army for their Brave & Soldier like conduct yesterday. No Troops could have manifested more eagerness for the combat than those who where not immediately engaged and none more bravery & coolness then those who were in action.

The Gen'l in a special maner returns his Thanks to Genl. Poor, the officers & soldiers of his Brigade for the firmness & resolution with which they opposed and routed the enemy. he also returns his Thanks to Major Parr and the Troops under his command for the brave stand they made he is sensible of the oblication he is under to every Genl. & commiss'd Officer for the Particular attention to his Orders and chearfulness they shew in Executing every direction, he cannot help expressing his satisfaction with the conduct of Colo. Procter and the officers & men of the artillery.—Capt. Macken Lts. Stephen & Jinkins have his cordial thanks for their servises they rendered the army by their Vigelilence and Executions—it is with Pleasure he declares the conduct of the whole army as fully convinced that Every futer Attempt to oppose their progress must be vain & fruitless, the same signals as yesterday will notify the march of the army. Genl. Clinton is appointed president of a Cort Martial to sit at 3 ocl'k this afternoon for the Trial of Commisary Steel. Each Brigade to furnish one Field offr. & three Captains. Captn. Anderson is appointed Judg Advocate the Cort to set at the Presidents Quarters.

After Orders.

Head Quarters, New Town
Augt. 30.

The Commander in Chief informs the Troops that he used every affort to procure proper supplies for the army and to obtain a sufficient number of Horses to Transport them but owing to the inattention of those whose business it was to make the necessary provisions he faild of obtaining such an ample supply's on hand will not without the greatest prudence enable him to complete the Business of the Expedition

he therefore Requests the Several Brigadiers & officers com'g Corps to Take the minds of the Troop under their Respective commands whether they will while in this corntry which abounds in corne & every oter kind of Vegitable be content to Draw half a Pound of Flour & a half Pound of meet & solt pr. day.

He desires the Troops to give their opinion upon the proposal with freedom and as soon as possible should they generally fall in with the porposalls, he promises that they shall be Paid for that Part of the Rations which is held back at the full value in money he flaters himself that the that the Troops who have discovered so much Bravery and fermness will freely consent to a Measure so Essentially to accomplish the important purposes of this expedition, and to enable them to add to the Laurels they have already gained. The enemy have subsisted a number of days on corn without either salt, Bread meat or flour & the Genl. cannot persuade himself that Troops who so far surpass them in valour and true Bravery will suffer themselves to be out done in that fortidute and preseverence which not only distinguishes but dignifies the soldiers —The does not mean to continue this thro the Campaign but only wishes it to be adopted in those places where Vegitables may supply the Place of Part of the common Rations of meat & flour & he thinks with a plenty of Vegitables, half of a common Ration of meat & flour will be much better then the whole without any.

The Troops will Please to Consider the matter, and give their opinion as soon as possible.

It is with the highest sence of gratitude the Genl. Rec'd an accont of the cheerful complyance of the Officers and soldiers of the army with the proposals of yesterday, this pleasing proof of vertue fortitude preserverence added to their striking eviden the have given of their Bravery, gives him the most agreeable sensation and Demands every Return in his Power he will Endeavor to Expedite the Opperations of the Campaign as much as possible and has no Doubt but with the

supplies on hand he will soon be able to Isue full Rations he assures them as soon as it can be Reduced to a certainty that the provisions will answer he will not loose one moment of ordering full allowance dealt out.

Least any doubt should arise in the mind of the Troops respecting the mony to be allowed in Lue of provision retained the Genl. assures them the shall receive as much as the provision would Cost at this time. As he Tinks that Rations of salt Especially Necessary at this time, the Comy's are derected to Isue full allowance till further orders.

The order of the 31 Ultimo not being sufficiently explicit the Gen'l thinks proper to mention that as the Flanking Division most act in conjunction with the first Line in case of an attack in front they must be Considered as under the Command of the Genl. Offrs. Commanding the Right & Left wing of the first Line.—Notwithstanding which they are to attend to the Genl. Orders given them in the order of Battle and act accordingly unless the Officer Commanding the wings should should find it necessary to give Contrary orders should the flanking Divisions be obliged to return to the Releef of the second Line, they are to consider themselves in time of action under the command of Genl. Clinton should find it necessary—to give Different Derection—The Gen'l considering the Flanks in this Light did not particularly mention the Right Flanking

Division in the order of the 30th ultimo tho he considered them as part of Genl. Poor's Brigade and meant to Tank them for their Bravery on the day of action.

The Genl. not being before notifyed which of the York Regts. ware in the action takes the oppertunity of returning his thanks to the officers & soldiers of Colo. Gansworth & Dubois's Regts. for their bravery and conduct on that day.

The Com'r in Chief is truly sensible of Capts. Bellard & Selin & Ensn. Dodge with their Corps of pioneers for their Great arlartness in forwarding the march of the army yesterday & tanks them for their industry.

Commis'y Steell is Released from his arrest and to Return to the duties of his office. Captn. Gifferd will still continue his charge of the Cattle and Report to Head Quarters once in 24 Hours how many cattle are on hand.

The Com'r in Chief positively forbids any Officer or Soldiers purches for their own use those horses of the enemy

which may be taken, and he Directs that those which may hear after be captured be imediately caried to the Qr. Master Genl. and by him purchesed for the use of the army—the Qr. Master is also Directed to take all such horses as may hear after be found in their posession, allowing the capturs or owners a reasonable vallue for the same—He calls upon the Officers and more especially the Officers of the Day to see that the horses are not loaded with Blunder or any unnecessary Baggage burthens which if Effectually prevented will greatly injure the army.

He is sorry to Mention that so Little attention is paid to his Orders against firing, is too Evident and will at all Times enable the enemy to fire upon the army and retire with impunity, it being impossible to distinguish their and our own frequent & Imprudent firing.

He has with Greaf and consern observed that by the inattention of the conducters of Pack Horses the Line of March is so lenthened that the several Divisions of the army are thrown out of suporting Distance & the whole thereby endangered. He therefore in the most possitive manner Declare he will punish every breach of the orders of march in futher.

The Genl. cannot help observing that instect of one Pack Horseman only being appropreated to every five horses there are a variety of instances of Officers waiters being employed to conduct one horse only which weekens the force of the army in a very great measure and Totally unnecessary as one of those waiters may with ease lead five horses and at the same time keep up with the Officers to whom they Belong—it would unjurous in a Campaign of a Different nature from this to request Officers to comply with those regulations, which are essentially necessary on this Expition the non observance of which probobly produce the most recenous consiquences.

The troops hold themselves in rediness to move in the Shortest Notice.

At a Gen'l Court Martial whereof Brigade'r Gen'l Clinton was presid't Colo. Ogdon was Try'd charged by Genl. Maxwell with marched off the Left flank of the army without his orders with marching Directly in Front of the Brigade and partly intersipting its march with haveing some Days ago that he would run the risk of Disobaying his Orders in the foregoing Instances.

The Court after considering the charges and the evidences are unanimusly of opinion that Colo. Ogdon was not calpable in march'g of his Division without Genl. Maxwell Orders they are unanimusly of oppinion that he did not march Directly in front of Genl. Maxwell's Brigade nor intersepted his Line of march, they are also of oppinion Colo. Ogdon was not culpable in saying a fieu Days ago that he should have run the risk of disobaing Genl. Maxwells orders with respect to the flanking Division before the Genl. Orders of the 31st a. m. The Court are of oppinion the several charges are groundless and do unimnsly acquit him with honor. The Commander in Chief aproves the sentence of the Court Martial, and ord. Colo. Suntry Complains have been made to the Commander in Chief that the Troops Make Excurtion into the Contry. & Rob the Inhabitents of their property he finds himself under the necessity of giveing possitive orders—that no soldier be permitted to go more the a half a mile from town without a writen pass from the Off'r Commanding the Corps to which he belongs. The Genl. Liments Exceedingly that troops that have so Desiridly acquired such reputation among their Countrymen, should suffer Disgrace by the inconsiderable conduct of a few Indeveduals and he possitively Declares that if those kind do not prove sufficient to provent such enormities in future he will provent the Stragling of Soldiers by forming a strong Piquitt round the whole encampment even tho half the Army should be Called on duty at the same time.

Returns to be made by one oc'l'k this day of all Fifes, Drums, Cords, Drum-heads, Slings, &c. wanting in the siveral Corps—All the public Horses of the Army excep those attached to

At a Gen'l Court Martial whereof Colo. Willis was President. Col'o Hasen was Try'd on the following charges for Disobeying of Orders, and unmilitary Conduct on the March from Tapon to the Liberty Pole in Halting the Brigade under his Command without any orders therefor from the General Commanding the Division and thereby occasioning a Vacancy of a half mile in the Center of the left Column and for un officer & un Gentleman like Behavour in falsely Asserting he hade receiv'd such Orders from Gen'l Starks. The Court are of Opinion that on the March from Tapen to the Liberty Pole, Colo. Hasen Halted the Brigade under his Command and occasion'd a Vacancy in the Left Column But as it appears to them that he had Orders from the General Commanding the Division to Halt, they do therefore Honourably acquit him of Disobedience of Orders & unmilitary Conduct in the Instance contained in this charge. The Court do also Honourably acquit Colo. Hasen of un officer & un Gentlemen like Behavour In asserting he had Orders from Gen'l Starks to Halt which this charge says he had not——

The Commander in Chief approves the sentence but as it appears to have been a matter of question—whether a Brigadeer or Officer Commanding a Brigade in a Line of March has Discresionary power to order Halts. The Gen'l thinks it necessary to declare that it is highly Improper for him to do so but in Case of Extreme necessity when the Halt and Cause of it should be Imediately Reported to the Officer Commanding the Division who is at the same moment to Inform the Genl. or Command'g Officer of the Column that he may take measures acordingly to Prevent a Separation of the Column

and the bad Consequences that may result therefrom, it is never the less the duty of Brigadeers or Officers Commanding Brigades if he finds his men fatigued & suffering for want of Water or in need of a Halt from any other good reason to make Imediate representation to the Officer under whom it may be Commanded & to the Officer Commanding the Column.

Colo. Hason is released from arest The Court Martial whereof Colo. Willis was President is Disolved.

Major Genl. Greens Orders.

His Excellency the Commander in Chief is to be absent from the Army for a few days, the knowledge of which may possibly reach the Enemy and Encourage them to make some movement in Consequence thereof. The Burning of Fences and breaking up Inclosures is so distressing to the Inhabitants as well as disgraceful to an Army that has the least pretention to Disceplien and order. The Genl. earnestly exorts the Officers of all Ranks but more particularly the Commanding Officers of Regim'ts to take all possible care to prevent it and for this purpose the camp and Quarter Guards are to Confine every person Detected in either removing or Burning fencing Stuff and as it frequently happens that there are a number of Soldiers standing Round the Fires made of Fencing, though none will acknowledge or inform who made it such therefore that are standing by it shall be considered as the others unless the Point out the persons and shall be confined and punish'd Accordingly.

As it is much better to prevent Crimes than punish them the Gen'l desires the Commanding Officers of Regiments to fix proper places for Citchens. The Cooking of the Reg'ts may be done together as much as possible and the Police Officers Visit them as well that the Cooking is properly perform'd as that the fires are not made of Fencing Stuff.

At the Gen'l Court Martial whereof Colo. Jackson was President Maj'r Murnong of the Core of Injineers was Try'd for Unofficer and Un Gentleman like behaviour in taking possession of the Quarters of the Rev'd David Jones in his absence and for Similiar behaviour to him in Quarters, the Court are

of opinion that Major Murnong having a Writt to take Possession of the Quarters which M'r Jones calls his, is not Guilty of unofficer and Un Gentleman like Conduct in taking Possession of them the Court do acquit Major Murnong of the last part of the charge alledged against him. Maj'r Gen'l Green Confirm'd the opinion of the Court Major Murong is released from Arrest.

The Truly Martial appearance made by the Troops Yesterday the order and regularity with which the made the different marches and Care and Fidelity they performed the several manuvers does them the greatest Credit and afford the most flattering prospect of Substantial service reputation and military Glory, nothing can be more pleasing to the Officers who feel for the Honour of the Army and the Independence of America then to Rabit progress made by Troops in Military Docepline the good Conduct of all Officers Yesterday gives the Gen'l the highest satisfaction and the particular service of Inspector General and those that serving in that Line Deserves his particular Thanks.

Treason of the Blackest dye was Yesterday Discovered Gen'l Arnold who commanded at West Point lost every sentiments of Honour of Private and public applications was about giving up that important Post into Hands of the Enemy such an Event must have given the American cause a Deadly wound if not a fatal stab Happily the Treason have been Discovered to prevent the fatal misfortune. The profedential Trame of Circumstances which let to it affording the most Convinceing prove that liberty of America is the object of Divine production, at the same time that the Treason is to be Recreted. The Gen'l cannot help Congratulating the Army on the Happy Discovery, our Enemys despairing of Carrying their Base art to Effect by Bribery & Corruption what they cannot accomplish in a mannerly way.

Great Honour is due the American Army that this is the first instance of treason of the kind where many were to be expected from the Nature of the Dispute and nothing is so bright an Ornament in the character of the American Soldiers as their having proved against all the Arts and Seductions of an Insidous Enemy.

Arnold has made his Escape to the Enemy but M'r Andrie the Adjutant General of the British Army who came out as a Spy to negotiate the Business is our Prisoner.

His Excellency the Commander in Chief has arrived at West Point from Hartford and is no doubt taking the proper measures to unravel so Helish a plot.

The Board of Gen'l Officers appointed to Examine into the Care of Major Andre have been Reported.

1st—That he came on shore from the Vulture Sloop of Warr in the Night of the 21st of Sept'r last on an Interview with Gen'l Arnold in a private and secret manner.

2dly—That he changed his Dress within our Lines and under a fain name and in a Disguise Habitt pass'd our Works at Stoney and Verplanks point the Evening the 22d Sept'r last and was taken the 23d of Sept'r last at Tarry Town in a Disguised Habit being then on his way to New York and

when taken had in his possession several papers which Contain'd Inteligence for the Enemy.

The Board having maturely Consider'd these Facts Do also Report to His Excellency Gen'l Washington That Major Andre Adjt Gen'l to the British Army ought to be Consider'd as a Spy from the Army and agreeable to the Law and Usage of the Nations it is therr opinion he ought to suffer death.

The Commander in Chief Directs the Execution of the above Sentence in usual way this afternoon at 5 Oclock precisely.

At a Division Gen'l Court Martial the 11th Sept'r last Lieut. Col'o Comd't Shearman President Major Albert Chapman was Try'd upon the following charges. First for Embezling public property & Endeavouring to induce the Q'r M'r of the Regiment to assist him in embezling powder for his own private use.

2d For making up two Enormous Bills against Col'o Nelson an Inhabitant of Morristown for taking up a stray'd Horse the property of said Nelson and that without any Expense to himself.

3dly For giving a Certificate to a Soldier in the 7th Cone't Regiment that he was Inlisted for three years only when he had repeatedly muster'd for during the War and Sworn to the Muster Rolls the Court after Considering the 1st and 3d Charge against Major Chapman are of opinion the charge of Imbezling public property is not supported therefore do acquit him of it, but finding him guilty of the other part of the first and of the 3d charge being a Breach of the Article fifth section the 1 D(?) of the Articles of War and do sentence him to be reprimanded in Gen'l Orders—The Gen'l is sorry to be under the disagreeable necessity of Differing in Opinion with the Court but thinks the Sentence Intirely Inadequate to charges so Seraries a Nature as those of which they find Maj'r Chapman Guilty he is releas'd from Arest.

There was a mistake in Entering the Evening Orders of the 25th Al Insteet of the Pensylvania Division the first Pensylvania Brigade should have been mentioned as the second Brigade, did not receiving marching Orders for some hours after.

Gen'l Greens Orders—

The Genl. is Exceedingly Mortified at the Complaints made by the Inhabitants against the Troops of this Garrison for Insults and Violence offer'd to their persons, Depredations Committed on their property it is difficult to account for such an Enorinitian (?) from Troops who have been wheretofore remarkable for their moderation and good conduct under every Species of suffering. The Villians have had the Impudence to plead Justification of their Conduct a Licence from their Officers but the Genl. persuades himself this is Impossible however if there should have been any to rights of Ortisons (?) as well as regardless to the reputation of the Troops to give such permitts they may be assur'd their conduct will be receiv'd with the outmost Indignation and resentment,—The General takes this opportunity to Inform the Troops that he sincerely Laments their Sufferings from the scant Supplys of Provisions and assures them that every possible Exersion is making for their Relief.

He therefore wishes them to submit to an unavoidable misfortune with that magnamity which has Dignified their Conduct so much on former occasions under similar Circumstances, to prevent the unprizeable part of the Garrison from Stealing out in the Country and repeating the abuses Complained off. The Rolls are to be Invarioubly call'd three times a day (to witt) at 9 in the morning when the Troop will beat at 1 in the afternoon and at Retreat Beating, The Inhabitants are also Directed to apprehend Every Soldier taken without the Garrison, unless he produces a pass from some one of the proper Officers appointed to give it.

A Detachment of two hundred men to parade to morrow morning at Guard Mounting with their arms for the purpose of Cutting wood and Transporting to the Garrison this Detachment to the form'd into four Distinct partys.

At a Gen'l Cort Martial where of Colo. Shreeve was president James Weling of the 2d Regt. of Light Dragoons was tryd charg'd with the following crimes First Forceing a Guard second Stealing a Horse from one of his officers, and third for Desertion and attempting to get to to the Enemy—The Court

after having duly considered the charges the Evidence and prisoners Defence do Judge him the said James Wering to be guilty of the first charge and the latter part of the 3d.(to wit) Endeavoring to get to the Enemy and do sentence him said James Waring, he having pleaded guilty of the second charge and the first part of the third (to witt) (Desertion) to suffer death two thirds of the Members agreeing thereto.

At a Gen'l Court Martial whereof Colo. Shreeve was Presidt. Ensign Swartrout of the 2d N: York Regiment was tryd for disobedience of orders the Court after having Consider'd the nature of the charge and evidence, Are of opinion that tho' the order given by Lieut. Colo. Cochran was irregular yet the mode of Ensign Swartrouts refusal to Comply with it was undecent and highly Improper and do therefore sentence him to be reprimanded in General Orders. The Gen'l aproves the sentence Decency as well as obedience to orders in characteristick of the Officer and Gentleman. The Gen'l is sorry that in this instance Ensign Swartrout Discover'd a want of it, Ensign Swartrout is released from Arest.

At the same Court Martial Ensign Vandenburg of the 5 and Ensign Barr & Griffin of the 4 N: York Regiments were tryd for disobedience of orders on the Grand parade on the 12th Inst. the Court having Consider'd the nature of the Charge against Ens. Vanderburg and the Evidence are of opinion that he is not Guilty of the charge Exhibitted against him and do acquit him with Honour. The Gen'l approves the Judgment of the Court and orders Ensign Vandenburg from his Arest.

The Court having Consider'd the Charge against Ensigns Barr and Griffin and the Evidence, are of opinion they are highly Censureable and do sentence them to be reprimanded in Gen'l Orders.

The Gen'l approves the sentence of the Court all Disputes on parade should be avoided or at least determinable for the present by the parties themselves and where this is Impractible no Gentleman should object to a Gentleman. The General therefore thinks the Conduct of Ensigns Barr and Griffin

in refusing a settlement, principles short of their own clame, exceeding unmilitary and highly reprehensible Ensigns Barr and Griffin are releas'd from Arest.

Whenever there is occasion to mention of the Fort at West Point either in verbal or in writing, respects it to be Expresive by the name of Fort Clinton and never by the name of Fort Arnold the Traytor, severally Wooden necessary Houses are to be built at proper places near the Barracks and untill they are Built, Temporary necessarys are to be dug and the Troops enjoined to use them if this is not attended to, the Garrison will become Nacious and in consequently sickly, the Importance of this object induces the General once more to request the strictest attention to the provision and water in the several Forts and Redoubts and that the several Officers whose business it is will see that everything now amiss be rectified—In some of the works there is a defficiency of

Water Casks Especially in Fort Putnam, a proper number is to be sent and all the Casks whether of provision or Water be Cooper'd without delay—It appears by the Returns that great numbers of persons are suttling at this post, none are to presume to do after publication of this Order but such as are Licensed or those whose former Licenses are approv'd and confirmed at Head Quarters. Those Suttling to Brigades to bring Recommendations from the Comdt. of the Brigade.

As the Comfort and Convenience of the Garrison will be much promoted by a plentiful supply of provision, Poultry, Cyder, Beer, &c. the neighboring Inhabitants are Invited to furnish this Garrison with those Articles they are to have free access to any of the Landings or Shores of the Garrison. (not Interupting the public business or going into any of the Forts) and will be protected from any Insult or abuse—The Interest of the Garrison is so much Involved in matter that the Gen'l assures himself that every one will Exert himself to give it every encouragement.

The General is not unmindful of or inattentive to the wanting necessity of the Troops or the hard duty they are obliged to perform they are an Exercise as great as consistt to his mind as they are to their Bodies he Considers himself the Miltary Father of those he has the Honour to Command and not only duty but the Strongest Inclination do's lead him to every Exertion for their relief and Comfort when at any time they meet with any particular Tryals they may be assured that they are unavoidable Consequences which nothing in his power can prevent. The Gen'l will always Contend that those under his Command shall equally share the Benefits with those at other posts under those Considerations he rests assured that the Troops chearfully Submit to any Tryals or Difficulties they may meet with in Common with others and steadily Continue by their patience and fortitude and virtue to Convince the

world that they are second to none. The duty at the post at present is hard and in some measure with Design to the future ease and Comfort of the Garrison that they may be Indulged in the more rigorous(?) approaching seasons. The fire engine being put in good repare the Garrison Q'r M'r will see that it is properly Executed and a proper number from the Artificers assigned to work it, should it any time become necessary if at any further period Commissary should be Destitute of Flour he will at every such day add half a pound of Beef to each Bat'n.

Extract from Gen'l Orders Head Quart'rs Totoway Nov. 3d 1780.

In the publication of the Extracts of the Resolves of Congress of the 3d and 21st of Oct'r there was an omision of parts of that of the 3d Declaring that the retiring Officers should be Intitled to Land at the close of the Warr, agreeable to the Resolution of the 16th Sept'r 1776 tho the Resolution of the 21st is Silent on this article the Genl. has no doubt that it remains in force.

Extract from Genl. Orders Head Quarters Camp Totoway November 15th 1780.

As nothing adds more to the Beauty and appearance of a Corps than the Exact unaformity of dress the Genl. recommends it thus, early to the Field officers newly arranged to fix upon a fashion for the Regimental Cloathing of the officers of their respective Corps (if it is not already done) Conforming themselves to the Ground facing Lineing and Buttons already assigned to the State they belong the Genl. sees with concern the Difficulty the officers labour under in pro-

cureing Cloths it is not therefore his wish that those who are already furnished should run themselves to Expence of new uniform if there old are not Exactly conformable but that they should in future Comply strictly with the Regimental fashion and if possible get their old Cloaths alter'd. It has a very odd appearance Especially to Foreigners to see the same Core of Officers differing from each other in the fashion of the faceing Sleeves and pocketts of their Coats attention to these Minuties has been thought necessary and proper in all Services it becomes so pecularly so in ours at this time as we shall more than probably take the Field next Campaign in Conjunction with our allies Composed of the first Troops in Europe who will receive Impresions and form opinions from the first view this again Induces the Genl. to Exhort all officers who continue in service to make themselves perfectly Masters of everything Containd in the Rules and Regulations of the Army that there may be a strict uniformity in our manuvers and Deceplin especially in the Honours pay'd to Officers according to their several Ranks a thing Scrupously attended to and Expected in foreign service—Strict attention is to be paid to the order of the 18th of June last distinguishing the Rank of Officers by their Bages.

Extract from Genl. Orders Head Quarters Camp Totoway Nov. 15th 1780.

As nothing adds more to the Beauty and appearance of a Corps than the exact uniformity of tress the Genl. recommends it, thos Early to the field Officers newly arranged to fix upon a fashon for the regimental clothing of the Officers of their respective Corps (if it is not all ready Done) conforming themselfs to the Ground faceing, Lining and buttens all ready assigned to the state they belong.

The Genl. sees with Concern the Difficulty the Officers Leabour under in procuring Cloaths it is not therefore his wish that those who are all ready furnished should run themselves to expence of new uniforms if their old are not Exceely conformable but that they should in further comply stricly with the regimental fashon and if possible get their old Cloaths altered.

It has a very odd appearance esspecily to forriners to see the same Core of Officers Differing from each other in the fashions of the faisons Sleaves and pockits of their coats an attention to this minuties has been Thought necessary and proper in all Services it be coms becularly so in ours at this Time as we shall more than probably Take the field next Campaign in Conjunsion with our allies Composed of the first Troops in europe who will receive impresions and form oppinions from the first View this again induces the Genl. to exhort all Officers who Continue in service to make themselves parfectly masters of everything Contain'd in the rules and regulations of the army that their may be a strict uniformity in our Maneovers and Disaplain especially in the honors Payd to Officers according to their several ranks a things scrupelously attended to and expected in forreign service.

Strict attention is to be paid to the order of the 18th of June Last destingushing the rank of Officers by their Bages.

Sir

I receivd your favour of yesterday, and thank you for your friendship Respecting the teames, you may be assured every part of the Conditions, given to M'r Smith shall be punctually complied with, this you may depend on upon my word,—as to Conductors, I am surprised they make any Objection respecting the pay, it is double what hath hitherto been and also the allowance of four Dollars pr. Day for the use of their own horses is very well—you may assure them, that they shall be on as good footing as any Conducters from any other

County, which Engage in this business, and request you will support what I mention respecting the teame hire & people's being punctually paid—and doubt not your reading in doing every thing in your power to promote the Countrys good.

Sir

I received yours this day am much pleased with your Diligence & hope you will be able to send me four Brigades of good Teames in a verry short time. You may depend on the Teams complied with fully—the Waggon Conducters have double pay to what they ever had & the four dollars p'r day for their horse & their Rations & Forrage makes it very good pay However they Shall have as much as any Waggon Master that comes from any other County & hope this will be sufficient for them, am sorry Col. Hooper would not assist you, if he has not Come from Easton, assure him it will serve me personally, I doubt not it will be in your power and Send as many Teames as posible and as soon as it can be done let them be good and strong and fit for duty.

Sir

I have wrote you the 31st Ultimo, Informing you of the Urgent and pressing Nessity their was for a Considerable number of good four Horse teames, to serve for three or Six Months if they will engage so long, & to go over the North River and Continue their if Necessary, as those Teames are wanted for the Service of our great Allyes his most Christian Majesty, whose troopes are daily expected I must again most earnestly request you will use all your power and Influence in York and Cumberland County to procure at least Fifty good four Horse Teames with Drivers, & Waggon Masters to each Brigade, which is to Consist of Ten Teames each they must have good Covers & everything in good order I have herewith inclosed you the Conditions the Teames are to be hird on which you may rely on being Puntually complied with. Should the pay of the Waggon Master be thought too little and you think it will be of Service, to give more you may go as far as Sixteen Dollars p'r day with Forrage & Rations & four Dollars pr. day for his Horse, their never was a time in which every exertion was wanted than the preasant this is a matter entirely out of the Line of the Quarter Master Department, the money is furnished by his most Christian Majesty I have to enable you to procure the Waggons with more Dispatch now given you Fifty half Johanneses Fifty seven pounds ten Shillings in paper Money newly Emmited by this State eaqual in Value to Gold and Silver & Thirty Thousand Dollars in Continental Money w'h you will advance to the Teames on their being ready to leave Carlisle, if you can get them to Come & Receive one half their months pay Advance here it will be of great use, as the Money will be ready but if you find the whole must be paid in Carlisle do it & I will send you more you are to account with me for this money and all expences or raising those teames your own expence shall be paid & Such Charges may be Necessary for this

purchase. I rely much on your promises, & know you have Influance, and doubt not you will do all in your power.

Sir

I wrote you yesterday as the people seems so difficult to believe that the terms will be complied with which I have engaged for & which you & they may rest fully assured shall be strictly & fully executed & fulfilled on my part without delay—to convince them of this I now send you Twenty thousand Dollars w'ch is a Months pay for Ten Teams but if you can get them to take one half the other to be paid here it will be better shoud you find it necessary to pay the first Brigade the whole some of one months pay advance do it & I will send you more, as this money is not the property of the United States you are on no Account nor on no pretence of emergency to dispose of it for any other purpose, but that of paying Waggons to come here agreeable to the conditions given you. I also send you paper of Inlistment which the Owners are to Sign & w'ch is to be sent with me with every Brigade also their Apraisment must be sent that I may Sign it—as to the pay of Waggon Masters, I wrote you about it yesterday, & you must do what ever is best on this Occaison which is urgent & requires dispatch there is a Blank for the number of Months which the Teams engage for which must not be less than three Months but four or Six would be better if they please.

Sir

As I find the people in General are fearfull they will not get their pay when they come here, & as you may rely on all the Terms being strictly complied with in every respect, to convince you & them of this I now send you Twenty thousand Dolls. w'ch is the pay of one Brigade for one month, but I woud wish you if you think it will answer the intention & bring out the Teams to pay them one half the months pay advance the rest to be paid the moment they arrive here but shoud you think it best to pay the whole months pay advance do it, & I will immediately send you more money this will I hope bring the Teams out without the disagreeable mode of Impressing which I would wish to avoid rest assured every part of the engagement shall be strictly complied with, if you find any difficulty respecting the pay, of a W. M. you may if you think it proper & necessary allow him Sixteen Dolls. pr. day Forage & Rations & four Dollars p day for his Horse as this Money is not the property of the United States, you must not on any account or on any pretence whatever use it, or aply it to any other purpose than that of paying for those teams now wanted—what ever expence you are at on this Account I will repay you & ernestly request every possible exertion in your power, & that the W. M. Gl. will assist you & all your friends have sent you the Terms of enlistment which the Owners of each Brigade must Sign & send it to me with the Apraisment, have left the number of months blank, it must not be less than three months but four or Six would be better, of this the people must be the Judges for themselves.

Sir,

Inclosed you have your order on Mr. Rob Morris, his Clerk woud give no Money, but the new Emission of this State, which cannot be passed as Gold to the owners of Teams; time only can give this money a free Circulation—I fancy Teams are Necessary, & it is intended they shou'd be procured agreeable to the Terms proposed, Money must be furnished & not in such scanty allowances, I have not time to send so frequently for money; but if agreeable to you, will send the people to you Mr. Morris or any person you please, to receive their pay &c. There is a Brigade of Waggon now in Town, but have no money to pay them, one Brigade is come in from Chester County which is paid out of the Money sent there, one other is ready, if the Money can be sent early in the morning—at least Sixty Thousand Dollars will be wanted in the morning & every day will require a sum of Money till the whole is compleated—I am informed Teams & Horses are purchased for you in Chester County & every other County in the State—you are the Judge & have certainly a right to do as you please but perhaps it may not be good policy to employ

so many agents, pardon me for mentioning this; as my sincere wish is that you may be well & effectually served—to accomplish which every thing in my power shall be done, with the utmost chearfulness & alacrity; both on this & every other Occasion the State Money sent to Chester County has not yet been pass'd—it would not be prudent to press it.

Sir,

I am realy Sorry to hear you did not Supply Mr. Baird with the two teams agreable to my request—from what you say'd to Mr. Hall I make no doubt you will have four Teams ready by to morrow—two of w'ch is to go with Mr. Grace, & two for Mr. Baird, w'ch Mr. Grace will take care off, & deliver

over to Mr. Baird—he left four thousand Eight hundred Dolls. with you, & Mr. Grace has the same Sum to pay for the two for his Brigade.

I request you will exert yourself to the outmost in geting those four Teams,—I rely & depend on your doing it without fail, as the two Brigades will wait for them, & it will be a great loss if you do not accomplish it— I xpect Capt. McCalla or Mr. Wright can furnish you with the grain for the four teams. Mr. Baird took the provisions for two men for twelve days & Mr. Grace does the same for two more.

I request you will loose no time in getting those teams ready and sent off let me here from you on this Subject.

Sir,

The Geers for the Ammunition Waggons are ready, their is only five Waggons yet come in—I have found a Person that will make me twelve Ammunition Waggons for £50 hard with Geers compleat. If I can advance him half the Money, this will save a Considerable sum as the others will cost about £62 Cash. If this is agreeable let me know, the Exchange at 60 for One if paid in Continental.

There is Eight four Horse Teams gone forward to Hartford—I Expect Sixty Teams from Col. Davis every hour—as he

promised that Number & in a few Days expect more Teams from Berks, Lancaster & Chester.

Dr. Sir,

I received your favour by Mr. Davison—there is not a Waggon come in from you but the first Six, and as the money I sent is nearly Equal to Fifty Teams, and Mr. Holker being Press'd for money for other purposes Can't at this time send up any Cash, but you may depend on any Sum that is Necessary in a very Short time the Teams is wanted and the distress that will be Occasioned for want of them will be great. I must earnestly entreat and request you will send off every Team you can get or procure they must not be detained to bring Loads here it prevents their getting here in time & the service is very different pray do all in your power, by the last of the week I can send you more money but if you can send Down the Teams to receive part of their pay here it would be better, the delay on the road I fear as you formerly mentioned you had three Brigades ready and they had full time to be here Some day ago.

I Congratulate you on the arival of the French Fleet at Rhode Island on the 10th Instant in the Evening, last Night the Express come to Town with the account and further perticulars we Expect hourly, this will Shew the necessity sending in the Waggons.

If you cant procure the to please your Self dont buy but if the Please you the will me.

Sir,

From your several Letters I finde I can expect very fiew Teames if any, I must therefore request you will send the money which I sent you to pay the hire of Waggons for the Service of his Most Christian Majesty his agents here called upon me for the money & as I wrote to you expressly that this money could not nor must not be applied to any other use I make no doubt you will send it Imediately. I rely on your punctuality as it would be very Injurious to me to be disapointed.

If I had it in my Power I would have sent you some money for acct. of the United States but I have not been able to procure any Since you were here. I hope soon to get some when you may expect all in my Power, please to let me know if you have any Horses Left that are fit for Service. If so please to send them as they are much wanted Could any Tow Linen be got near you & at what price.

The French Fleet Arrived at Rhoad Island, the 10 Inst. in the Evening every horse or waggon we have or can get will be wanted. I am very sorry you Could not get Téams, in your County but am Convinced you done all in your power and Mr. Sloughs buying Horses was no doubt the Cause you could not get them.

Sir,

I have this moment received your favour of this day, whatever Teams comes in in future shall be detained here till further Orders, but they will expect & insist on grain which is always given them after entering into the public Service, if Pasture can be got it Shall be done & I hope to be able to procure it, you mention the Twenty Ammunition Waggons being ready next week I cannot answer for that, I informed you yesterday of a proposal which was made me about the Twelve amunition Waggons, when I sent for the money (Mr. Way) he said he forgot to mention the cover which he never furnished this will Cost £3 hard, and of Course the waggon will Cost £53 which I more than I mentioned to you I desired him to wait on you and let you know, since which I have not seen him, there is Seven waggons now ready with all their Geers Compleat, so soon as the others are Brought in I will let you know but Cannot be Answerable for the time.

I have before informed you there was Eighty waggons gon forward Expect Seventy from the other side Susquehannah but you can be no means be answerable for haveing Two hundred ready. I ingaged I would do all in my Power to procure that number which I will do If practable the State have sent to procure a Considerable number and the Militia will be Imediately Called out those Circumstances and a Backwardness in the people to go over the north River has and will render it More Deficult than I expected but every thing in my Power shall be done.

Whatever Horses comes here shall be provided for in the best pasture that can be procured there will be an Express raedy to go to Lancaster to Morrow who will Take any money you or Mr. Morris thinks proper to send.

You may rely on every service in my Power on this and every other occation being verry Sincerely

Mr. William Stroud W. M.

Philadelphia 20th Augt. 1780.

Sir,

Haveing Commited to your Care Twenty three Horses purchased By Col. Davis by Order of John Holker Esqr. for the ues of his most Christian Majesty's army, I request you will see them taken good care of & well attended to one the road, & proceed to Hartford in Connecticut by way of Corryell Ferry Sussex Court House new windsor, and from thence the best route to Hartford. When there apply to Col. Wadsworth & if he has no orders to give you proceed to Newport Rhoad Island and Deliver them to Col. De Corney, Commissary of War for his most Christian Majesty. I request you will pay particular attention to the Horses & see that the men who drives them are Careful and attentive to their Duty and get Good pasture and feed them properly.

I must request you will be particularly attentive to the Brigade of Amunition Waggons under the Care of Mr. William Stroud W. C. who has Ten good four Horse Teams with him, the property of his Most Christian Majesty, and now on their way to Joine his army, see that they are taken good Care of and make no Unnecessary delay on the Road, that the Drivers take Care of the Horses and get good pasture for them, they had Thirty days Forage, and Fifteen days Rations, the mus be very Carefull of the Horses and Keep them in good order.

You will also take particular Care to finde out every Brigade of Teams sent from this for his most Christian Majesty's Service, and make them proceed on with the utmost dispatch by the nearest & Best route to newport, and see that they make no delay on any account,—I fear they have already been very bleamable and have delayed the time on the road this I request you will prevent in future and see that every man does his duty and they are hereby Strictly charged to make no Delay but proceed on with the utmost dispatch, & to Obey your Orders till the arrive at the allied Army or receive Orders from Mosr. D Corney, or some officer impowered to give Orders. You are on no account to Suffer any Delay on the Road—You have herewith the names of the waggon Conductors that have gone on & be perticularly Carefull to finde them out if in any place between this and Hartford and get them on without Delay.

When you arrive at Rhoad Island wait on Monsr. Col. De Corney and inform him of your arrival & deliver the Horses and Ammunition Waggons and also the Hired Teams & if he has Occasion for your Services to Stay and take the whole

care of all the Teams sent from this do it—and be carefull and diligent to perform your duty, receiving his orders and giving the necessary and proper Orders to the several Waggon Masters, and see that they do their duty and perform the Service required of them.

If Monsr. De Corney does not want you, you are to return Imediately after seeing all the Teams arrive and ready to do whatever duty may be required of them—I doubt not your particular Care & attention to every part of your duty here injoined you & in every respect act with Vigilance and loose no time in the execution of the duty.

For this service you are to receive from the 18 Inst. two dollars pr day or the Exchange being now one hundred and forty Dollars Continental, to bear your expence going and returning—the men who drives the Horses to have Seventy dollars p day and bear their own expences, the drivers in Mr. Strouds Brigade are inlisted for three months at £180 pr. month and one months pay advanced to them Mr. Stroud to have Twenty Dollars pr. day, him and the drivers to have Rations he has had one months pay advance also.

To enable you to provide properly for the Horses on the Road and perform the several duties now enjoined you have given you Six Thousand Dollars for which you are to be accountable and take receipts for all sums you expend in the service, and keep proper and regular Accts. and pay the men what may be reasonably necessary you will write me from North River, Hartford, and Newport, and give me full information respecting every transaction.

If Inspectors are wanted for the first Division in the Room of Mr. Beard and in the third Devision, I would wish to have Mr. Buchannon and Mr. Williamson take charge of them, or if they do not Chuse it, or are not altogether fit there are several very good men gon on.

If Col. Wadsworth does not act himself he will give you his advice & assistance—I request every Possible care and dilegence may be used to get the Teams on with all the expedition that Can be used, take particular notice of any Brigade or waggon Conductor, who have delayed on the road or behaved Ill, & make me a report of it. Remember a Ration for a man is a pound of Beef or Pork a pound of Flour and a Jill of Rum & For each Team one Bushell Indian Corn and half pound of Hay or pasture pr. day.

Philadelphia 22d Augt. 1780.

Sir,

I have the honour to inclose you Excellency Copy of the Contracts made with the propriters of the several Teams sent by your desire to new Windsor and from thence to Hartford in Connecticut from whence they were sent to Rhoad Island —the Teams are as low as possible being less than Ten Shillings in Gold pr. day, when General Knox Pressed Teams in Bucks County in this State he allowed them Twenty shillings in gold or the Exchange and the several Waggon Masters in the Countys have offered Sixty pounds pr, day, those Sums are at least Double what I Give for those employed for the service of His most Christian Majesty's Army and will shew that there has been no want of proper Interest care or attention in the business—I have the pleasure of asshuring your Excellency that I have done all that the nature and Situation of this Country would permit & believe you will find on enquiry that every that every part of the business has been Carefully attended to & no pains wanting to have it done on on the best Terms—and so soon as the present exhausted State of Horses & Teams would admit many of the Teams

remained a Considerable time at New Windsor or where tney were ordered, befor they were ordered, before any directions were given for them to proceed on to Hartford, I sent a Superintendant of Fifty Teams to the Marquis Dela Fayte at Camp who gave him his Orders to proceed on to Hartford the 17th July if there was any error in their remaining at new windsor it was for want of orders sent there sooner.

If I can render any service to his most Christian Majesty your Excellency or the Count De Rochambeau by going to Rhoad Island I shall do it with pleasure without any other View than that of giving him full information of the nature & manner of drawing forth the resources of this Country & the mode of obtaining what Supplies the army may want on the easiest and best terms and this can only be done by proper Care and attention to the business and having a Gentleman to do the Business whom the Gl. & your Excellency Can confide in & who will act with proper Spirit Honour and Integrity —I shall only beg leave to add that every Service in my Power is at your Command.

Philad. 22 August 1780.

Sir,

I herewith Inclose you a Copy of my Letter to His Excellency the Chevalier De Luzerne with the Several papers there-

in mentioned which will fully Shew the manner of transacting the business you were pleased to recommend to my Care, I can truly asshure you that every part has been done with the utmost attention and on the best Terms which you will see by examing my Letter Inclosed & the papers therein which fully explains the nature of the agreements the Rations of Each Man p day.

By the Agreements no Horse Waggon or Geers is to be paid for except they are Killed or taken by the Enemy or the Troops of his Most Christian Majesty or Drown'd by Crossing or recrossing the North river, in eiether of thos Cases the must produce a Certificate of the fact and then the two men who Appaised the Horses Waggon and Geers must be Qualified before a Majistrate that the appraisement is Just and true to the best of their knowledge and Judgment this put it out of the power of any Person to Alter the appraisment and is the best security to both parties that only Justice can can be obtained.

I beg leave to observe that the Destination of the Teams at New Windsor proceeded from want of Orders for them to go on, that being the place they were Ordered, and as soon as the Marquis Dela Fayette gave directions for them to proceed the went on as fast as they Cou'd be collected, and the first Devision Arrived at Hartford on the 17th July, as appears by Colo. Wadsworths Orders to Mr. Beard, and there was no Orders sent to forward the Teams on to Rhoad Island those Orders they rec'd from Colo. Wadsworth after the got to Hartford. It is fully evident that those prices was low and much less than was given by the British last War the gave 15f to 20f pr. Team in Specie when it was fully one Half more Valuable than at present, and the prices given by Genl. Knox and by the Waggon Masters in they Countys is double what I give for the Service of his Most Christian Majesty as it is now equal to 10f in gold pr. day for a four Horse Team and Driver. I am fully Sattisfied the business could not be done one better Terms which will appear on every examination into the matter, as to Teams delaying on the road it is a complaint unjustly made, but very Deficult to be reimeded it has been often tried and Several W. M. punnished but Still the will delay at times where they have it in their power—I cannot be expected to be answerable for this the Rations for Men and Horses is fully explained in the paper annexed to the agreement.

I flatter myself it will apear every thing has been done that

the Nature & Situation of the times would admit of this. I am certain that I have been and am Sincearly deposed to Render every Service in my power at all times and on every Occasion.

Philad'a 24 Sept'r 1780.

Sir,

My Indisposition prevented me waiting on you Yesterday, and also from Answering y'r Note this morning. I am Still confined & incapable of much bus's but every paper & acct. Shall be laid before you, they never were refused,—an acct. of the Expenditures was Sent you, & the bus's not being Compleated, as all the Teams are to be paid the hire due them, w'ch will amt. to a Very Considerable Sum, as there is two months pay due to the greatest part, also grain & money for pasture—there is near One hundred arrived, as I am told,—from those reasons & there being nothing mentioned for my trouble in Executing this bus's w'ch I do assure you has been atend'd with both trouble Care, & Attention, I did not send you the Acc't Curr't as the Acc'ts cannot be closed till everything is Setled, but you shall have the Acc'ts as they Stand, yet I cannot P'tend to Strike any ballance before the bus's is Compleated,—notwithstanding, you shall have every Satisfaction & information you require, so far as it depends on me,—I hope to Morrow, if I am the least Capable of bus's

or the directing of it,—the Owners of the Teams are Clamourous for their money I will Endeav'r to send you an Estimate of the Sums due them that are here, the others are on their Way, the pay of One hundred Teams for two Months will be 492000 Dolls. Exclusive of grain, & Money due for pasture, the grain Shall be delivered as long as there is any at Mr. Turnbull's agreable to your desire to Mr. Hall, you may rest Assured of everything in my power to give you satisfaction, & save you trouble, having no other View from the begining, & doubt not you will make the Necess'y provision to enable me to pay the hire of the Teams, & other Expences—I have the honour to be &ca &ca.

Y'rs J. M.

1 Four horses Team for One Month is 2400 Dolls. so that ten Teams is 24000 Dolls. besides W. Mrs. pay for one months pay.

Honble John Holker Esqr.

Estimate of the hire of 100 four horse Teams for two Months—

1 four horse Team & driver at £30 p day is 2400 Dolls. for 30 Days.

One Brigade of four horse Teams for 30 Days is 2400 Ds. & 600 Dolls. for the Waggon Condr. is 24600 Dolls.

100 four horse Teams & drivers & W. Crs. for two Months is 492000 Dolls. & there will be near half as much for the other Teams expected in in a Short Time, Exclusive of ball'ce due them for pasture going, & the amt. of grain due them Coming w'ch will be Considerable.

Philadelphia 30th Sept. 1780.

Dr. Sir,

On the Return of the Teams from the French Service I requested the Waggon Conductors to make out their pay-Rolls, which was done by all but Mr. Gill & Mr. Rowan, who went off without, as Mr. Williamson has been has been Obliged to take Care of Mr. Gills Brigade for some time Gill having been taken into Custody at West Point for some misconduct on the road I desired Mr. Williamson to make out his pay-Roll which he has done, but Gill having Provisions & Rum here & having furnished no Acco't of what was done with it I finde it necessary to have part of the money stoped till this matter is cleared up. Mr. Rowan has left no acco't of any kind—Mr.

Buchannon has left his pay Role with Mr. Scull & hope to be able to pay him the money the moment Mr. Holker Furnishes the Cash it Shall be paid, as he is the person to be looked up to for this Business—Mr. Buchannan & Mr. williamson have done every thing proper and necessary. I can't say so much of the Others I sent after Mr. Gill but he did not see proper to return Mr. Rowan went intirely without my knowledge for what reason I can't Say, but it has been injurious to the owners of the Teams as I cannot Send their pay before the Accounts are properly made Out.

I have detained one Thousand Pounds being part of the pay due Mr. Gill for his Team hire & Weages till he settles the Account of Provisions he received here of which he has rendered no Account.

I am with esteem

Philadelphia 21st January 1781.

John Holker Esqr.

I have this moment received your favour of this date my acco'ts Can be produced at any time as some of the persons to whom mony may be due on settlement, live in the Country. I must wait their coming but the accounts as They stand, may be delivered yo. when you please—when I undertook this business it was with an intention of rendering our great & good ally all the service in my power, and to render every degree of service, & respect to his Excell. The Minister of France whom I revere & esteem—and also to do all in my power to serve Mr. Holker, to whom I shall at all Times be pleased to have an opp'o of shewing my attention and respect—you mention that what monies may remain in my hands shall be paid you, and When you would apply to his Excell. The Minister to know what should be allowed me for my Trouble &c. I apprehend this is giving unnecessary trouble, but I believe there will not be much mony in my hands when every Thing is settled, you know what you've allowed for purchase of horses &a. &a. & I believe it is a self evident thing, that I have had, at least, double the Trouble Those Gentlemen had—I would of choice purchase horses, Teams, provisions &a at 2½ p'o rather than goe Through the business I have done at 5 p'o this I believe you must be convinced of—yet I shall make no further observation on the subject, you will

please to present this matter as you think proper to the Minister & when you let me know his & your determination the accounts shall be finished; it cannot be unreasonable to have This done—it will at all Times give me pleasure to shew my respects for his Excell: The Chevalier Dela Luzerne & Mr. Holker & to render them every degree of service, & politenss in my power—I will not say anything on the subject of the Care & attention to the business, let it speak for itself—I have the honour to be &ca.

25th Janua., 1781.

John Holker Esqr.

I am favour'd with yours of this morning, the acco'ts are now closed, Mr. Culnan will call on you, to shew the state of them no Time or pains shall be wanting to finish them as I am as anxious on that head as you can be & would wish to have them done to please you, if there was no other reasons —As to what you say respecting a Commission, I shall only answer that the trouble & atention must be obvious to you, I doubt not I will be at least on as good terms as any other who has transacted the business of he Army—I have before mention'd my motives for engaging in the measure & will at all Times be ready to render any service in my power without any stipulation on my side, on my side, as it will give me real pleasure to render you everything that can be either of use to you, or your friends; my disposition has ever been to serve His Excell. the Minister of France on all occasions; you may depend that there will be no Sum allowed by him, that will not exceed the money I have received or That will remain in my hands.

I am &ca.

10th February 81.

Monsieur De Marbois.

I have the honour to answer your esteemed favour of yesterday to inform you it is absolutely out of my power to retain any sum to cover Monsr. De Corneys advances to the different artificers, aluded to in his Letter, whereas I've settled & paid (upwards of two months) every farthing owing to the Waggoners in service of our Illustrious Ally—Jonathan Simmons the first Time I've heard his name mention'd consequently had no anticipation of his demand on Monsr. De Corney, nor did this Gent. ever hint to me to deduct any

sums from Waggoners, except these that you'l find p list inclosed—You likewise have one of the Route from hence to Baltimore &a &c for your govenrm't.

I am &ca.

You may depend I shall endeavour to recover The Waggoners to Cover Monsr. De Corneys demands.

I was much surprised at being Called on, by a Mr. James Wright for pay of two teams, sent by you for Service of his Most Christian Majesty, as you have a much larger sum in your hands, which I sent you in June last, with positive directions, & instructions to apply it to paying & procuring Teams for that service, and have your acknowledgm't both in writing & before Witness of your having received that sum—Those Teams are returned to me & entered in your & your sons names, if you do not pay the hire of those Teams (if they are not yours & your sons), you may expect both trouble & expence, & other inconveniences the people will not be kept out of their mony, and you may depend the Agents of his Most Christian Majesty will take proper & public steps to have this matter settled, you have had a Considerable indulgence already, & doubt not you will do what is just, and consistent, you know the United States have no right to any monys put into a mans hands, for the use of our Ally, and that you must be accountable for the mony—As I have had a good opinion of you, doubt not you will act w'th propriety on this occasion.

To ye worthy William Keith Essqr. Luitenant Governour of ye province of Penssilvania &c, and to his honourable Council, Ctr.

The adress of ye houshoulders of the Township of Whitland humbly sheweth that whereas you were pleased some time agoe to order John Cartlige Isaac Taylor &c To view and lay out a Road Leading from Thomas Moores at Brandywine to Conostogoe; and some of ye sd—viewers Through wroung and prejudicial Information are inclining to lay out a new Road, Through our Township, parallel for 9 or 10 miles length, with a good beaten Road, (formerly laid out by order of Court; Returned and Recorded with Court & distance) about half a mile distant from ye now intended Road; now your petitioners humbly craves that you will be pleased to prevent this intended evil Thrown upon us, an evil we say in

ye beginning an evil without end; by entailing a necessity upon us, and our successors of mantaining Two Roads where there is occation but of one, and yet a much better Road than is possible to make ye other (unless it may be conceived to ye Rivers to a above its own Rise or fountain) and all this to gratifie a family or two, or perhaps under a protesct of somewhat nearer which by estimation Tis Thought not 20 perches shorter in 10 or 12 miles going, whereas ye old Road is advantagious to ye Township at Unchlan, Caln and many more northern Inhabitants and ye none Required one being at Laft 4 miles to ye northward of all Inhabitants southerly one or two excepted, yt if sotled on warrant which got his out of their way to make use of to Philad'ia, besides yt difference of charge that ye new Road will require will be as ten to one, having 12 or 14 Creeks or Runs to cross, Swamps & Cripples to close, Causways to make, bridges & arches of stone to build, (for Timber will be swept away every fresh or glutt of Rain and that which is our chief bulwark and defence against Judgement & poverty (next to ye blessing of a good Government) and that ye enable us to be Rather holpfull than burthensome to ye State; we mean our land & plantation will be rendered unprofitable unto us, in cutting them into Shreds & gussit, mantainaned of double, nay Quadruple fences; so yt we may safely lay yt will be a greater damage or charge to us than any Tax subsidy or levie y't we have yet had, or perhaps may have for many years to Come, having thus abrubtly stated our Case hope we shall finde Cause to say y't we live under a Governour and in a Government, whose ministers Chief Study and Concern is to hear and Redress y't plaints and agrievances of y't people Commited to their Care; by preventing what may be Injurious at present as also what may prove the Regret of Succeeding times, and we on our parts under those Considerations, according to our particular assessments Shall willingly (even if these were no necessity) Contribute toward ye Support of such an administration; so Relying on your (illegible) we your petitioners as in duty bound Shall pray for your prosperity here, and Recompence in ye Mansions of Glory, here-after, to which we Subscribe.

To the Honourable Patrick Gordon Esq'r Governor of the Province of Pensylvania, New Castle Kent and Sussex on Delaware And Council.

The Petition of the Inhabitants of the upper part of the County of Chester Sheweth that by Reason of the Great Distance, we live from the County Town Where Elections & Court are held & publick Offices kept, The arm of Justice is weakened. The benefit of many Good & wholesome Laws almost if not Intirely Lost, & ye person, who has Occasion to Apply to them, put to great and Burdensom Expence, Thieves Vagabonds & Ill people—Boldly Infest our parts (Counting themselves beyond the Reach of Law) to the Disturbance of

the Peace & very great Damage of the Inhabitants it being almost Impossible to take & Secure Such Villains where Justices & Constables are So thin plac'd as not one in Twenty or thirty Miles, & Assistance Difficult to be raised on Such Occasions Amongst people who would freely Serve but are Deterred by want of Ready Cash, to bear ye Charges of a Journey of Eighty or a hundred Miles to the County Jail, and as we are Mostly new Setlers far from a Market, and Trade and Commerce among our Selves Mostly by way of Barter, Money cannot be Supposed plenty. Therefore when Law Suits prove Necessary to Recover our Just Debts, the trouble and Expence of Travelling to Obtain a Writt or Sumons, having it Serv'd bringing Evidence (when needful) attending Two or three Courts, the Repealed Journeys amount to three or four hundred Miles, besides the loss of much time, all which being A ready Money Charge makes the Recovery of a Small Sum more detrimental than the loss of it, and is a very Great Oppression of the Debtor, and in debts under forty Shillings which canot be recovered without an Execution. The action Drops rather then Cause So great a Charge as would Accrue if the party be Sent to Jail, & taken from his ffriends (if any) who might Assist him, Run away Servants & Suspitious persons who often come this way to hide among us or Escape into the back parts of Maryland are Seldom taken up. The Reward for Runaways not answering the Trouble, And to far to Send Suspected Persons til they can make proof of their Clearness. Our highways are unrepaired, Townships Undivided nor Bridges Built, where they are wanted nor can our Taxes be as Regulary Laid, or our Griovance likely to be Redressed when the mean Distance to the nearest place of Appeal is at least fifty Miles, and neither Comishoner nor more then one Assessor (if that) Elected in many years within the Circle of five hundred ffamilies, These and many more Inconveniences of the like nature, & from the Same Cause which may Occur to you on a serious Reflection, we humbly offer to our Consideration, Hopeing as wee are his Majesties Leige Subjects, And Justly Entituled to all the ease & Advantages the Law will Afford, You will in Your Care for the Publick good be Ready to Redress, And in Order thereto as most of Your petitioners Liveing fifty or Eighty Miles from Chester & Some much further, and ye Bounds Yearly Enlarging, We humbly pray you would be pleased to Order A Divission line to be made between the uper and lower part of Chester County, which uper Divission when So

made may be a County and Called ye County of with Privilidge Granted to Elect Representatives, A Sheriff, & Other Officers in number and Names as they are now Elected in Chester County, And have all other Officers, Offices powers and priviledges Equal with Other Countys, This we humbly Conceive would be the most Effectual means of Redress, of Great East and benefit to Your Petitioners, and no ways Prejudicial to Chester County or the province in General And for which your Petitioners as in Duty Bound Shall pray &c.

To the Honourable Patrick Gordon Esqr. Lieut. Gov'r of the province of Pensilvania & County's of New Castle Kent & Sussex upon Delaware—In Council.

The Petition of the Majestrates Grandjury and other Inhabetants of the County of Lancaster met at Lancaster their General Court of Quarter Sessions The Third day of November 1730 humbly sheweth, That your petitioners living far from a Seaport Town or Navigable water are Oblieged to convey the product of our Labours to Philadelphia by land Carriage which Burden is much Encreased by want of Suitable Roads for Wagons & other Carriages to pass, There being no publick high ways yet layd out in this County to Philadelphia suitable to Answer the said occasion, nor (as we are well Informed) Through some part of Chester County.

We therefore Humbly pray you would please to appoint Suitable persons to View and lay out a Road from a Town of Lancaster till it will conveniently fall in with the Kings Road in Chester County leading to Philadelphia, And in such place as may best Accomodate the aforesaid Service and also grant a review of the publick Road from thence to the fferrey of Sculkill at high Street we having been Credebly Informed that the Roads are in Several places removed from where they were laid out very much to the damageing the said Roads, And rendreing thence more unfitt for Traveling.

To the Right Honourable the Governour of Pensylvania & to the Honourable Council.

The Humble Petition of Us the Inhabitants in several Parts of your Neighbouring Province of Nova Caesarea Humbly Sheweth that whereas We are assured a certain Person nam'd Daniel Howel is endeavouring to procure a new Road thrö' your Province from York to Philadelphia and is for that end preparing or has actualy presented a Petition to your Excellency. We thought it therefore our Duty to inform you that the said Daniel Howel is acted only by a Private Interest and that He has already got a Road laid out here to the extream Damage of our own Country and in opposition to a very good Road and Ferry here as well as in your Excellency's Province, of all which We have in an humble Petition informd our own Governour and knowing farther that your discountenancing the said Daniel Howel, will in a great measure defeat his pernicious designs here. We make bold humbly to petition your Excellency & your Council to give no encouragement to the said evil Person, We being already extremely well satisfied with the Road now in Use to that commonly calld Well's Ferry Which We esteem by much the convenienest both for Philadelphia or York.

And your Petitioners shall ever pray.

To the Honourable Patrick Gordon Esqr. Lieutenant Governor of the Province of Pennsylvania and New Castle, Kent and Sussex upon Delaware as also to the Honourable the Members of His Majesties Council For the Province aforesaid convened.

The Petition of sundry the Inhabitants of the Counties of Chester and Lancaster whose Names are hereunto Subscribed. Humbly Sheweth.

That Your Petitioners being seating for the most Part at a great Distance from the City of Philadelphia in a Part of the said Counties where no Publick Road is as yet Established and having long Laboured under many Inconveniences through the ward of such a Road whereby they might have free access to the market to their very great Loss and Detriment.

Now your Petitioners humbly represent that several of them having bestowed much Time and Pains in making diligent Search where a Road might be laid out that would relieve them from the said Inconveniences & to the best Advantage of your Petitioners in general they have discovered that a very good one might be laid out from John Harris's Ferry on Susquehanna River to join with the Road lately confirmed from Lancaster Town to Philadelphia near the now dwelling Plantation of Edward Pen commonly known by the Name of Edward Kennisons in the great Valley or thereabouts which said Road cannot fail to be of universal Service to your Petitioners in general & a Detriment to none of the Inhabitants of the said Counties in particular it being also a much nearer Cutt than any Road ever yet laid out or travelled to Philadelphia from the said Place of Beginning.

Your Petitioners therefore most humbly pray that your Honours in your Great Wisdom maturely weighing the many Benefits that will consequently accrue as well to trading in General as to your Petitioners in Particular by a more speedy & easy Conveyance of their Commodities to the Market will vouchsafe to issue Orders to such Persons as your Honours shall esteem Capable to View and Lay one the said Road to the best Advantage of your Petitioners.

And your Petitioners as in Duty bound shall ever pray &c.

Petition. Sundry Inhabitants of Chester & Lancaster for a Road from Jno. Harris's ferry to Edw'd Kennisons Plantation in the Great Valley.

Deliv'd by E Shippen J. Harris May 21st 1735.

Order for laying out the Road directed by Minute of Council of Jan. 23d 1735-6.

To the Honorable The President & Council of the Province of Pennsylvania. The Petition of sundry the Inhabitants of the County of Lancaster.

Most Humbly Sheweth

That whereas the Gentlemen in Company concerned in the Ironworks in Coventry on the French Creek by their great Expence Care & Industry have carried on the Said Works to such Perfection that they are not only of great Benefit to themselves but also very Advantageous to the Province & more Particularly to the Inhabitants of this Country whose Distance from Philadelphia requires Large Quantities of Iron to fit out their Waggons & Appertinances, with which we have been in General very well & serviceably supply'd from the said Works these many years; & whereas y'r Pet's have all along laboured under great Difficulties & Hardships for want

of Passable Roads in Carriage of the said Iron & such Commodities for Provision as are received in Barter for the same; notwithstanding the said Company at their Private Expence have erected Bridges & Causeys in some Places before quite unpassable; & further whereas your Petit'rs have been at some Expence in attending the Courts of Quarter Session at Lancaster in Hopes of Relief without any Success.

Your Petitioners therefore most humbly presume to Present this their Aggrievance to the Serious & Wise Consideration of your Honourable Board. And also most humbly Pray that your Honours would please to nominate & empower such a Number of Substantial Honest Impartial Men as to your Wisdom shall seem expedient to View and Lay out a Passable Waggon Road from the Town of Lancaster to the Ironworks in Coventry afors'd & to Fork near the Widow Roberts Plantation one Branch whereof to go to the new Furnace now Erecting on the French Creek called Redding Furnace, from thence into a Road lately laid out from the Yellow Spring to Germans Mill & from thence into the Conastogo Road; with the least Injury to the Settlements & to avoid all Reasonable Cause of Complaints which Road when Laid out will be a great Encouragement to the Inhabitants of this County to proceed cheerfully with their Improvements to the Advancement of Trade & the general Benefit.

Petition.

Sundry Inhabitants of Lancaster for a Road from Lancaster town to Coventry from.

Jany. 25th 1736.

Read & referred for further consideration.

To The Right Honourable, James Logan—President in Counsil att Philadelphia.

Sr. May it please Your Honour—

In Answer to an order the 23d of January Last past, from the Govern, and Counsel, To us Directed To view and Lay Out a high Road from John Harry's ffery upon Susquehana River Leading to Philadelphia; In order thereunto—We met the first Day of June last To view and Lay out the Said Road and takin the best care we Could of Private mens Intrest, where the Ground and for the Good of the Road would Answer, finding that a good Road way be had and believing That this Road will be of Servise to all the publick trade and Business Depending on; In thy province and an univerale good to all More Epestally to those Back Inhabitants of this province of Pensilvania, which have Petitioned for the Said Road, in order to Transport their goods to Markett at Phild'a and which undouptedly will be of great Service towards the Settling of those Back parts of thy Province. James Armstrong and John Foster not being provided for the Jurney throughout; they parted with us well Satisfied, and Gave as or Some of us power to Sign the Return for them Commiting the Care of the whole Affairs to us. We, Hans Graff, John Mendenhall, John Davis, John Fredrick and Rees Price Tak-

ing all the Care we Could Continued and Lay out the Said Road through the County of Lancister to the County Line; then met with by the Gent'men of Chester County; Appointed to Continue the Said Road and we with them Continued in Laying out the Said road To the place pray'd, for or there about. And Whereas a petition hath been presented to your Honorable Counsil To Present the Great Abuse or Detriment they are Like to Receive by the Said Road, and also that the men so Appointed to Lay out the Said Road, hath not Discharged the trust that was Reposed in them and to Serve private mens Intrest or to Serve Some particular persons, without Considering the true Intrest of ye Publick, which Assertions we utterly Deny and that They are all false, and Groundless and of themselves unsuportable; We as afore Said being Accompanied with Several other Substanciall Inhabitants Being two weeks a Continuing the Said Road to the County Line then met with As aforesaid, Unanimously a Greeting, Continued the Same to the Township of Calan, and there met with by Several of The freeholders of the Said Township, and of the Township of Yunchland and Whiteland, who Inform'd us that they Had been Serching Near two Days in the said Township to find the by Way that Could be had, and had Mark'd apart of the way and we for fear that Some Self Intrest might be in Some there; we look one whole Day to Serch and View wither or not there Could be a better way found; which we Could not find a Better way and they told us that If there must be any Road had at all, that it was the best as Could be had But that they had Rather be ridd of the Trouble of it, But being in a General Way Satisfyed, we Continued to Lay out the Said Road (and for the Grounds Being so bad as it hath been Represented it is not so) for a good road may be had without much Charge or Trouble. And as for the Petitioners Against the Said Road for most part of them had not Seen where it way Layd out Nor knew nothing about it, but as Some others had told them before they Signed the Petition; one of the Jury being of one of the Said Townships was well Satisfyed the Return and we the Rest of the Jury upon the view, and best Information we Could get, have Cause to Believe that the Said road will be a very Servisable and Commodious and add much to ye Intrest of the publick of this province in General; if your Hon'ble In your wisdom See Cause why this Road may not be Confirmed we humbly pray that we may be Heard,

and we Doubt not But we Shall (by your Honour's permitance) Give full Satisfaction.

Representation of the Persons directed by the order of Council of ye 23d of Jan'r 1735-6 to lay out a road from Harris ferry In answer to Some Allegations in a Debt agst. the said Road this deliv'd by Ja. Tregoe Dec'r 20th, 1736.

Edw'd Nicholas of Narlmill town'p in Chester County to have Notice of ye Day, to be appointed for hearing both parties, the notice to be left at Jno. Miller Tavernkeeper in Salisbury Lane.

To the Hon'ble George Thomas Esq'r Lieut. Governour of the Province of Pennsylvania, and of the Counties of Newcastle, Kent and Sussex on Delaware, And to the Hon'ble Council of the said Province.

The Petition of divers Inhabitants of the Counties of Philadelphia, Chester and Lancaster, in behalf of themselves and other Inhabitants of the said Privince.

Humbly Sheweth,

That Whereas upon the Petition of divers of the Inhabitants of the said Counties, to the Late Govern'r and Council of this Province, praying that a Road might be laid out from the Town of Lancaster, thro' the Counties of Lancaster, Chester and Philadelphia to the ferry on Schuylkill called High Street Ferry at the West end of Philadelphia City; An order was issued about eight years ago, authorizing & appointing a considerable numb. of Persons in the said Order name (Some out of each of the s'd Counties, as usal in like cases) to view, and to lay out a Road accordingly; And in pursuance thereof a Road was laid out in the year 1733 from

the Town of Lancaster, thro' the County of Lancaster, & part of the County of Chester, to the plantation of one John Spruce in the s'd county of Chester, which is little more than half the distance to Philad'a. A Return of which part being made to that Board, the same was confirmed. But the further execution of the s'd Order in laying out the remaining part of the s'd Road, either thro' the indisposition of some of the persons appointed, several of which soon after died or for other causes unknown to your Petitioners, has been hitherto deferred and altho' from the said John Spruce's to Philada. there is a Road left open, yet the same is in many places very inconvenient, and as it is not Legally established, and therefore not repaired by the Overseers of the High Ways, it is become very dangerous, & very injurious to the large Trade of the numerous Inhabitants to the City of Philadelphia.

Your Petitioners therefore humbly pray That this Hon'ble Board would be pleased to appoint proper Persons to view & to lay out the said Road from the end of the Road already confirmed, near the Plantation of John Spruce in the County of Chester to High Street Ferry afores'd According to a Law of this Province in Such Case made and provided.

Decr. 15th 1740.

1758 Julie 24 Die

City of Philadelphia.

To the Honourable John Penn Esq. Lieutenant Governor of the Province of Pennsylvania, And To The Honourable The Members of his Council.————

The Petition of divers Inhabitants of the City of Philadelphia.

Most Respectfully Sheweth

THAT Your Petitioners are Informed a new Road from this City to the village of Strasburg, leading to the Borough of Lancaster, is by your order lately laid out. That the Ground overwhich it is laid, is good and suitable for the purpose—That the said Road is much shorter to the said village * * * * * * * *, and to a number of well settled back Townships, than the old Road now in use, or than any other Ground of equal goodness will admit of,—and that Notwithstanding these Facts great opposition is Raised against a Confirmation of the said Road.

YOUR Petitioners therefore beg leave to represent to the Governor and Council——

THAT it is of great Importance to the People of this Province to have such Roads as may Promote the Trade thereof, being the best Communition in their Power between the Capital City and the Back Inhabitants, and thereby lessen the Expence of bringing the produce of the Country to Market, and Supplying the Back Counties with such Foreign Commodities as they may Require.——— THAT Trade and Commerce on which the Welfare and Happiness of every Community depend, is in this province supported under disadvantages which several of the neighbouring Colonies are free from.—Their Water Carriage affording their Remote Inhabitants an easy Transportation of all Commodoties for Market—while ours are discouraged by a Length of Road, laid generally on bad Ground, Crooked and Ill supported.———

Your Petitioners therefore pray the Governor and Council, to take the Premisses into their Consideration and Confirm the said New Road.

Presented to the Governor & Council 10th Nov. 1770.

To the Honorable John Penn Esquire Lieutenant Governor of the Province of Pennsylvania and Counties of New Castle Kent & Sussex on Delaware and his Honourable Council.——

The Petition of divers Inhabitants of the County of Lancaster Humbly Sheweth

That the Great Road from the upper parts of the said County, especially from the Borough of Lancaster, to Philadelphia, is by the constant use of it with heavy Loaded Carriages, and by its being laid in many places over very bad ground, now rendered almost impassable, and is attended in many parts of it with such Danger & Difficulty, that the Waggoners in many Seasons are under the necessity, when heavy loaded, to, or from the Philadelphia Market, of travelling in Parties, that they may Afford each other Assistance.—

That notwithstanding the great Labour, Care and Expence used in repairing the said Road, it is Constantly in bad Order; and as the Trade & Commerce of the Province increases, & it is more used by heavy carriages, will be still more troublesome & difficult.——

That another Road upon better ground, and nearer by some Miles, may be had, and is now absolutely necessary for the accommodation of the back Inhabitants of the said County in their Commercial intercourse with the City of Philadelphia—. The want of a good Road seems to threaten a diversion of the valuable Trade of this County, or some parts of it, to other places; and now, not only, actually prevents many Farmers from Attending the City markets; but puts them under the disagreeable necessity of trusting, and giving Commissions to others to Carry the produce of their Farms to Market, by which, many have suffered greatly; Whereas were the Roads Good and safe, their own horses & Carriages might be employed for that Purpose, and would take back for them Salt & other Articles for their home consumption, which they could purchase most reasonable in the City.——

That a Kings Highway or Public Road hath lately been laid out by Order of the Governor and Council, from the Middle-Ferry on Schuylkill to the Sign of the Ship in Chester County; & from thence along or near the old Gap--Road as far as the Village of Strasbrg in Lancaster County—This Road Your Petitioners beg leave to say, is laid out on much better ground than the old Road, is some miles shorter; & your Petitioners conceive is the best, straitest and most convenient Road for the back Inhabitants; and will be of Great Utility to the Trade of Philadelphia—. The Inhabitants of Lancaster; and such as shall choose to pass through that Town, from the remote parts of the Province, will have an easy road from thence to the said Publick Road; whereby they will shun eight or ten miles of Hills & bad ground, which are upon the old Road between the s'd Town & the Sign of the Ship; & those whom it may best Suit to take the back Road, from Harris's by the Dunker Town (formerly called Peter's Road) may enter into the said newlaid out Road, near the North Branch of Brandywine Creek; & by that means have an easy, safe & shorter Carriage from thence to Philadelphia.———.

Your Petitioners therefore pray the Houourable Governor & Council to take the Premises into Consideration, and as the said New Road seems to have been laid out chiefly with design to encourage & secure the Trade of the Inhabitants of the interior parts of the Province to the City of Philadelphia, & is the Road yet pointed out for that purpose, to Confirm the said Newlaid out Road as a Kings Highway or Publick Road

and to order that the same may be forthwith opened & cleared———.

And your Petitioners will pray &c.

(Presented to the Governor & Council the 10th November 1770.)

To His Honour the Governor and Council in Philadelphia Sitting.

The Humble Petition of the Inhabitants in General of the Township of Solebury in the County of Bucks Humbly Sheweth—

Whereas there was a Road laid out from Philadelphia to the River Dilaware oppisite John Reading's Landing, many Years ago by Order of the Governor and Council, upon the Promise of the said John Reading's and the Inhabitants of West Jersey laying Out a Road from the said John Reading's Landing afore said to New York—— But instead of bringing the said Road to the said John Reading's Landing asfd (they to wit) the Inhabitants of West Jersey afore said, brought the Road Oppisite to John Well's about three miles below the said Jon. Reading's Cr. Which Obliged the Inhabitants of Solebury afore said To Petition to the Court of Quarter Sessions in Buck for a Road from John Well's into the former Road near Buckingham Meeting House being near five Miles, And a Ferry being settled unto the said John Well's by an Act of Assembly of this Province whereby the Road to New York might be accommodated———. Which renders that part of the afore said Road from Buckingham Meeting House to the River oppisite John Reading Landing afore said, which is now Daniel Howel's useless and Unnecessary—— And the said Dan'l Howel endeavering to force us Your Petitioners to open the Road from Buckingham Meeting house to the River as afore said, Thereby to promote a fferry which would be a great Damage to Your Petitioners in Cutting Our Lands and also to ye aforesaid John Wells in Perticular And Whereas some time since some of the Inhabitants of solebury affd. Did Humbly Petition his Honour the Governour & Council affd. That that part of the Road from Buckingham Meeting House to the River oppisite to Dan'l Howels Landing formerly called John Readings Landing might be Disanuled—— and that part from Buckingham Meeting House to John Well's fferry might be Establisht in ye room thereof And Whereas some other Persons of the Inhabitants of solebury affd. has Petitioned His Honour the Governor Cr. That that part of the Road from Buckingham Meeting House to the River oppisite Daniel Howel's Landing might be opend—— But since the aforesaid Petitions has been Delivered in order for a hearing the Inhabitants of solebury affd. have Mett, and upon further Consideration hath Generally Concluded that if in case the Road

was opened to the River oppisite to Dan'l Howels Landing as aff'd, it would be very Injurious to some of the Inhabitants Lands and also the place of the River against Dan'l Howels Landing is not Commodious nor Necessary for a Ferry, inasmuch as the said John Wells Ferry is but about three miles below the said Dan'l Howel's Landing. Also the affd. John Wells having kept the fferry Divers Years w'th good Boats very good accomodations in His House for Travelers. A Man well beloved of his Neighbours for keeping good orders in his House, has always behaved himself well to all Persons as becomes him in such his Vocation, therefore the Humble request of Your Petitioners is that You in Your Wisdom would Consider the Premises aforesaid, and your favouring our request will much Oblige your Petitioners, and we shall as in Duty Bound ever pray &r ———

We the Subscribers to this Collum of the above pettition do Cortifie that we know the matter Contain'd in said potition to be true, & therefore pray the Governors & Councils Consideration of the same as such.

To the Honourable Sir Partrick Gordon Esqr. Governor of the province of Pensilvania and to his Honourable Counsell—

The humble petition of the Inhabitance in and About frankford Sheweth

That Whereas it hath been proposed, that a new bridg. Should be made over frankford Creek, Becaus of the badness of the Way and ford. Where it now is, and the Danger of Carts And Waggans overseting and Children falling in to the Creek and Some Travellers being in Danger of being drowned. it being also very Ill convenient for all Cariage to and from (The Metropoletan Citty of the Province:) Phila'd and it being the Great high Road of America, wants Above halfe the breadth of sd. Road from Phila'd to bucks which is 60 foot and This is not near Half the Braedth. it is So narrow that two Carriages Cannot pass by one Another, Coll: Burnet and his Ladey w'th divors others in his Coach was overset. two Gertlewemen Were overset in the Creek in a Chase. Two Children Last Summer fell into the Creek and In all Likelyhood had been Drowned, if help had not been neigh. and Carrages have been broak And overset through the badness and narrowness of the Way and at high water when their is a fresh in the Creek there is no passing at all; also the Road for About a Quarter of a Mile to And from the Old bridg is very Mirey and Costs the Country a great deale in Repaireing On boath Sides of the Bridg. Besides the Greate Charge of maintaining three Bridges. And building a Wall. to Support the bad narrow way. w'ch if built. is in Danger of being Undermin'd by floods. w'ch in Great Raines is very Raped, Wee humbly Conceve that one Single New Bridg. a Little Lower down the Creek will Ease the County of a Continuall Great Charge In Repairing all the Above. as well as Accomodate Strangers and Travellers and the Inhabitance of the Township and County. Wee have also understood that the Gentlemen in Commission to Survey sd. Road is also of the Same mind with us, that there is need of an Alteration in Relation to this affaire. it being nearer, Cleaner. and much Less Chargeable where it is Proposed To bee and wee desire that the afore Said Gentlemen may have a Second Premise. So wee pray that in your Wisdome you would be pleased to Consider the General Advantage In this Case and your petitioners Shall Ever pray as in deutyBound—

To the Honourable John Penn Governor in and over the Province of Pennsylvania, & Counties of Newcastle, Kent and Sussex on Delaware.

The Petition of Sundry of the Inhabitants of Westmoreland County.

Sheweth

That your Petitioners in Consequence of the First Alarm in these Parts did assemble at Hanna's Town, where at their own Expence they erected a Small Fortification as a Shelter for their Wives. and Families during the Troublesome Times, & under direction of the Gentlemen of the Association, voluntarily took up Arms for the General defence of this part of the Country, till such Time as your Honor & the Honble assembly were pleased to approve of our proceedings. Your Petitioners thought themselves extremely happy and Seceure, when your Honor & the Honble Assembly so considerately order'd a Number of Troops to be embodied for our General protection and safety, but your Petitioners are now rendered very uneasy by the Removal of these Troops their Arms & Amunition, on which your Petitioners greatest dependence lay, and which we your Petitioners farther understand are ordered to the Kittaning, a place at least distant from any of the Settlements Twenty five or Thirty Miles. Your peitioners by being left thus exposed, without Arms or Amunition, humbly conceive themselves to be in great Danger from the Enemy, and are sorry to observe to your Honor and the Honble Assembly, that tis the general, as well as the humble opinion of your Petitioners, that removing the Troops to so distant and uninhabited a part of the Provicne as the Kittaning, cannot answer the good purpose for which they were intended, but appears calculated only by the advice of some who prefer their own private Interest to the Public Welfare. Your Petitioners are farther most humbly of opinion that, some ill disposed person or Persons have misrepresented our real Situation to your Honor and the Honble Assembly, otherwise we

could not conceive that your Honor and the Honble Assembly would leave us exposed and Defenceless in the manner we now are. Your Petitioners therefore most humbly request, that your Honor would be pleased to consider their Alarming Situation, and order such Assistance as their defenceless condition requires. To the Honorable John Penn Esquire Governor & Commander in Chief in and over the Province of Pennsylvania and Counties of New Castle Kent and Sussex upon Delaware. The Petition of the Inhabitants of Westmoreland county Humbly Sheweth

That there is great Reason to fear that this Part of the County will soon be Involved in an Indian War That the consequences will most probably be striking as the country is in a defenceless State without any Places of Strength Stock of amunition or necessary Stores.

That the abandoning the country must be attended with total Ruin to great numbers who are now in an easy Situation but almost distracted with the Apprehensions of Seeing their Helpless Infants fall a Sacrifice to Savage Cruelty and this will most Certainly be the Event unless they meet with some Protection.

In these Circumstances next to the Almighty they look up to your Honour and Hope you will take their Case into consideration and afford them Such Relief as to your Honour shall seem meet
